What You Don't Find in, You Find Out-Eventually

A low price comes high when it buys only the shadow, instead of the substance; only the rind instead of the fruit; only what seems instead of what is. If you have worn cheap clothes, you know that there is a wide gap between expectation and experience.

Our clothes are of the kind we know will give satisfaction and that's the reason we show the very best makes, such as Stein-Bloch Smart, Clothcraft guaranteed and Griffon Ultra Suits and Top Coats, ranging in price from

\$25.00 to \$50.00

CHEAPER than 30 years ago

One reason concrete is used so generally today in all types of construction from sidewalks to highways, from garages to enormous industrial plants, is the fact that Portland Cement actually costs less than it did thirty years ago.

The Atlas rotary kiln, daily producing as much as the old-time kiln did in one month, was the greatest single factor in assuring this cheapness.

And your building material dealer, the only distributing channel between Atlas and you, assures distribution economy. He knows building and building materials. He can help you.
