HOME

How much will you pay for safety, for permanence, for comfort?

Portland Cement, the material making this possible, is the cheapest of all products undergoing a complete process of manufacture.

A permanent, fire-safe home can be built for from 2% to 5% more than one of impermanent materials. The protection of your investment, the safety of your loved ones, can be assured for a ridiculously small outlay. And such a home is warmer in winter, cooler in summer, and more sanitary the year 'round.

Ask your building material dealer for facts and figures on such construction. Your contractor will also tell you that it is more rapid, as well as safer, than temporary building.

GENUINE buying opportunities are all that interest ad-readers. Offers interest people who—through reading much advertising—KNOW, must be very real price concessions, and must be made on very real values.

Tidbits From Our School

All who have returned say that they enjoyed the Easter vacation.

Tuesday morning four new girls entered school. One in the first grade, one in the third grade, one in the fourth and one in the first-year high. We welcome them!

The senior play is progressing very nicely. We hope to see "Welcome Home" some time in May.

The high school second team defeated the Congregational church team of Wellsville, 26-15 last Friday-night.

"Art"—"And after the party I asked to see her home."

Lenford—"And what did she say?"

"Art"—"She said, 'I'll send you a picture of it.'"

English Teacher—"Leonard, is pants a common noun?"

Leonard—"Pants is an uncommon noun."

English Teacher—"Why do you say it is an uncommon noun?"

Leonard—"Because they are singular at the top and plural at the bottom."

His Aunt (to Kenny, who was reaching for the butter): "Kenny don't you know you shouldn't reach for the butter that way? Haven't you a tongue?"

Kenny—"Yes, but it won't reach the butter."

Wayland—"I haven't the cheek to kiss you."

Anna T.—"Use mine."

"Hey frosh, what time is it?"

"How did you know I was a frosh?"

"I guessed it."

"Then guess what time it is."

Ronald says—"The fellow that said 'happiness is attainable without money' didn't know my girl."

Some fellows prepare a lesson in five minutes and get 100—That's genius.

Some fellows don't prepare one at all and get 95—That's a gift.

Some fellows have no idea what it's about, but sit next to a fellow that does, and gets 60—That's poor eye sight.

GRIP

This bard was one of those elected, in some dark lottery selected, to play, much to their own embarrassment, in Old Man Grip's return engagement. I've been called out from in among the mighty circle of the stung, to join the group of sadder men who have been stung, then stung again. On the 28th of March, this bard had little pep and starch, and ere Old Sol had sunk to rest, the grip was roosting on his chest. An April sun was shining sweet before he called the job complete and stood again upon his feet. This bard was one time heard to say he put some faith in good Cousy. But though some pains may be corrected by rubbing down the parts affected, the trouble is I hate to rub—I ache so like Beelzebub. O I have risen up to tell that this disease was made in Hell, by Satan, Lord of all Damnation, and Judas in collaboration. Though in the care of Old Man Grip I made a long and tedious trip, I praise the noble work of Hannah, who has it over Pollyanna; for often when my nerves were jagged, I ran that gentle lady ragged. I much admire the deep devotion with which she doled out pill and potion, and if I were not married to her, I should begin at once to woo her.
