

BRAND NEW WEALTH THE FARMER'S GIFT!

Did you men who are planting now ever stop to consider that every dollar you take from the soil is brand new wealth—taken from nobody else, never owned by anyone before? Wealth that is new all the way through is your contribution to the nation.

This Institution is proud that it has been chosen by many farmers to keep safely for them their share of this new wealth—to help that account to grow through the three per cent. interest we pay—to counsel them in financial matters—to co-operate in many other ways.

We will be glad of the chance to tell you how we can serve you.

CHEMISTRY

"Though your sins be as scarlet they shall be as white as snow; though they be red like crimson, they shall be as wool."

That's chemistry. God is here pointing to a chemical solution into which any man's sins may be poured, no matter how scarlet or how crimson, with the result that they will come out pure white. That solution is the blood of Jesus Christ, shed nearly two thousand years ago, but as effective now to change the darkness of sins to the whiteness of purity as when the dying thief alongside the dying Lord first proved its efficacy.

"Though your sins"—yes, yours, my friend.

And more than that, there is no other chemistry that will do it. And if you go into eternity with your sins scarlet instead of white, there's judgment and eternal death for you. But you need not do so, for the fountain for sin and uncleanness is open now.

*Isa. 1-18.
