**USED CARS FOR EUROPE.
A TEXT FOR FORD.
WHAT IS A CAREER?
THE JUDGE'S COCKTAIL.**

When the automobile arrived, old-fashioned carriages, Victorias, broughams, etc., became worthless here, and a market was found for them in South America where they did not give up horses and carriages so easily.

Lately the American problem has been "how to get rid of second-hand automobiles." Europe, it seems, will help solve that problem.

A company, formed to ship second-hand cars to Europe, sends over bargains by the shipload. Money is not as plentiful there as it is here. The "used car," at a whittled down price, is attractive. Unloading of used cars abroad will be a good thing for Europe, which needs economy, and a good thing for the United States, where millions need "a bigger or better car."

The Senate Agricultural Committee, 11 to 5, voted against Ford's Muscle Shoals offer and took up Senator Norris's bill.

Senators that refused Ford's offer are hurting farmers and hurting themselves. But that doesn't console Ford, who must now find his consolation in the 14th Psalm. Verse 3 is especially recommended: "Put not your trust in princes, nor in the son of man, in whom there is no help."

The unreliable son of man in this case seems to be Mr. Coolidge.

Chlorine gas that wiped out battalions in the great war, will be used on a bigger scale of destruction against germs of influenza, pneumonia, and other diseases. That's a better war.

Exclusive clubs in New York decide to suspend their visitors' list during the Democratic convention. This is presumably to oblige members that occasionally dream political dreams, on their own account, but would not like to push the thing so far as to "invite those political chaps to one's own club, don't you know." We really have an American aristocracy, a poor thing, but our own.

The Methodists, with "going forward" for their keynote, vote 5 to 1 in their general conference to lift the ban on dances and theaters. The old rule was no amusement, except those which can be used in the tasks of the Lord Jesus. Now amusement and religion can be kept separate, as education and religion are separate in public schools.

Charles H. Mayo, great surgeon, says, cancer will be conquered "within a few years." Already seventy to eighty per cent of cancers can be cured "if taken in time." Remember that over-eating is one of the principal causes of cancer. Keep your system light, clear, clean, full of energy, and it will deal with the diseases that attack it.

Overloaded, it is helpless.

Miss Gildersleeve, dean of Barnard College, tells the story that marriage is not ENOUGH for women now. Each girl must have a career, as well as a husband.

What is a career? Beethoven's job was music. Michelangelo's was art. Did not their mothers have a career, when they created them? Or must they also paint pictures and write music? Is not the creator as great as the thing created?

Mothers are the creators, men are only the product, depending for their fame on what their mothers give them.

It would horrify you to read about a female gorilla capturing a young girl, skinning her, to use the skin as sandals. That never happened. But European ladies are having sandals made of the "soft and pliable" skin of monkeys, guaranteed not to "squeak." In a gorilla that would shock us. It's all right for a lady.

Rebecca West, an intelligent young English writer, back in London, tells of a judge in the Middle West "who danced the tango with passion rarely exhibited in public places. And afterward gave me a wonderful cocktail made of a brand of white fire out of a silver flask the size of the Ascot Cup."

At his invitation she sat on the bench with him next day and saw him fine a colored lady, seventy-five years old, \$50 for carrying a pint bottle of moonshine whiskey. She presents that as a sample of our "respect for law."

One for all—All for one

A community or town can no more afford to be divided against itself than can a family. Andover is in reality one big family—as is every town and community regardless of its size. Are we divided against ourselves? The question cannot be answered collectively. It must be answered individually—and there is no better time to answer than TODAY.

Let us face the facts. Let each of us check up on our own short-comings and each decide to never again, by word or act, be guilty of disloyalty to our town or an unconscious traitor to our own best interests.

Perhaps there are those of us who do not fully realize how our seeming little acts are a violation of loyalty,—and finally a direct blow against our own personal interests. Let us illustrate:

A big majority of us are property owners. We worked, earned and saved to invest here. When we bought we naturally hoped our investment would be a paying one.

Whether our investments are paying ones depends absolutely and entirely upon every one of us.

There is no selfish motive in the aim. If we make Andover a better town—and a more prosperous town which, through industrial and commercial needs will attract new people, then all will reap prosperity, the new-comers as well as we of our loyal family who built it up.

The method of achieving this is a simple one. All we have to do is throw all of our resources into home affairs. These resources include all of our buying and selling—pleasures and amusements, as well as needed material things. Increased business means more money in circulation—all of which in turn is thrown right back into building, improvements, more work and better wages.

But the big point is to start doing it TODAY—and EVERY DAY we should religiously follow this policy—else we are disloyal—dividing our family against itself and helping its fall.

LET US START TODAY TO MAKE
