Why Editors Are Wealthy

A child is born in the neighborhood; the attending physician gets \$10. The editor gives the loud mouthed baby and the happy parents a send-off and gets \$0. When it is christened the minister gets \$10 the editor gets \$00. It grows up and marries. The editor publishes another long-winded article, and tells a dozen lies about the beautiful and accomplished bride. The minister gets \$10 and a piece of cake, and the editor gets \$000. In the course of time it dies. The doctor gets from \$25 to \$100, the undertaker from \$50 to \$500, the editor publishes a notice of death and obituary two columns long, lodge and society resolutions, a lot of poetry and a free card of thanks and gets \$0,000. No wonder so many editors are rich.—Pickup.

Cull the poultry flock early and get a money return from the culls before they run up expense for their feed. Profits in poultry now depend mainly on low cost of production.

Glycerine Mixture

Prevents Appendicitis

Simple glycerine, buckthorn bark, etc., as mixed in Adlerika is excellent to guard against appendicitis. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gasses and poisons. Brings out matter you never thought was in your system. Helps any case gas on the stomach in TEN minutes.

BRUNDAGE DRUG CO.

HIGHLIGHTS ON STATE CROPS

From New York State Dept. Farms & Markets June 17, 1924.

Fowls Higher—Broilers Lower

Because of the changes in the supply live poultry prices show considerable variations from last week, says the State Department of Farms & Markets. There has been a shortage of fowls and consequently there has been an advance, colored bringing 27-28c a pound, leghorns 35-37c. Broilers, on the other hand, have been in heavy supply and the price is now down at 38-40c a pound for colored, and 30-37c for leghorns.

Veals Continue Steady

Country-dressed calves have been in light receipt the past few days but with the demand slow prices have continued steady. Choice calves are bringing 14-15c a pound fair to good, 12-13c, small and common 9-11c. Extra fancy have sold at a premium.

Eggs Advance

Following the advance in brown and western eggs noted last week, nearby white eggs began a series of advances. The wholesale price today for early henner whites, extra firsts, was 32-33c a dozen or three cents above that of a week ago. Nearby henner browns, extras brot 33-35c.

Butter Unsettled—Cheese Steady

Though the price of creamery salted, higher score, butter is 42½-43c a pound or one-half cent above that of a week ago, the market today was unsettled. One thousand boxes of Argentine butter have added Monday to the 19,762 tubs received from domestic producers.

Cheese continues steady with held whole milk flats, average run bringing 28-29c a pound and fresh 18-18½c.

Old Crop Products

The barreled apple market is steady with limited receipts and a fair demand. "A" grade 2½ inch Baldwins are bringing \$4.50-5. Old carrots have been negligible and onions very light. Yellow best onions are realizing \$3.25-3.50 per 100 pound sack. The old crop potato market is dull. Round white No. 1's are selling at \$3-3.10 per 150-lb sack. Up-state points are now supplying the following new crop products: Gooseberries, strawberries, lettuce, radishes, rhubarb and spinach.

Washington, D. C., for the week ending June 16, 1924

Grain

Strength in foreign markets and continued unfavorable reports from winter wheat belt caused continued upward trend in wheat market during week. Prices up 10-11c. Corn market also higher as movement continues light and crop prospects poor. Oats steady, prices slightly higher. Quoted June 16: No. 1 dark

Hall's Catarrh Medicine

will do what your doctor's medicine can't.
