THIS MAN A BRAVE "SUCKER"

Texan Spent Four Years Running Down the Crooks Who Had Swindled Him.

A medal should be struck in honor of the Texas man who spent four fears running down a gang of crooks who had defrauded him. Besides showing unusual bravery—unusual for the man who has been a sucker—he rendered conspicuous public service, says the Milwaukee Journal. Estimates say that the American public pays a toll of \$1,000,000,000 a year to swindlers who use the malls to defraud. Then there are the fake

year to awindlers who use the mails to defraud. Then there are the fake stock schemes, the fake land selling and all other ways of separating a man from his money. The tribute to the thieves goes on despite the best efforts of the post office and the better business bureaus. For the lure of the chain letter, the offer of home employment in a field where the victim has had no training and the chaines to get wealth in the oil fields seems about as strong as the lure of the bait for an inquisitive muskelunge.

The confidence man is aided by that trait in human nature which makes a

trait in human nature which makes a victim loath to admit that he has been a sucker. He is more likely to promise himself that he will be wiser next time and pocket his loss. Many swindlers aim at collecting small sums only, on the theory that the loser will not make a row. But there is sense in the request of the Post Office department that every sum lost by such schemes be reported, even though it be but 10 cents. If all who were defrauded went after the confidence man resolutely enough he would find things too lively for his prosperity. trait in human nature which makes a

17 Cents Out Of Each Dollar

Out of every dollar The Niagara Falls Power Company receives for the electricity it sells, 17 cents go to pay for taxes.

This fact is neither fully realized nor generally known. It is usually conveniently ignored in political discussions of rates for power and light.

Only by the continuous development of more efficient and economical methods of · production is The Niagara Falls Power Comell its electricity at the lowest average price received by any generating system on the North American Continent.

Prof. George Herbert Palmer of Har-vard says that the masculine habit of rigid, logical reasoning is contracted very early, and in illustration he tells he following story: "A little boy and the following story: girl of my acquaintance were tucked gri of my acquantance were tucked up snug in bed winen their mother heard them talking. I wonder what we're here for?' asked the little boy. The little girl remembered the lessons that had been taught her, and replied, sweetly. 'We are here to help others.' The little boy suiffed. 'Then, what are the others here for?'
