INTRODUCING SALLIE

Sallie is a modern, pretty young creature, with all the emotions and desires you yourself had when you were at that glorious age that lies somewhere between sixteen and twenty-five.

Again, she is your own daughter, or the daughter of your very best friend. In other words, there is some one dear to you with the same warmth of sentiment, the same tetrnal struggle between "right and wrong," and underneath it all, that innate desire to "do right" that God ereates in all our little girls—that prompting spirit called conscience to be tenderly nurtured and made strong by clean thots and actions or left to grow lax and imperfect as a weed.

Sallie is everywhere. The eyes of the world are upon the ultimate outcome of her moral code. Is she going to weaken her creed of right and wrong and stretch her philosophy of life to that of the girls who have a "good" time?

In this day of cigerettes, cocktails and correct reached at the desired.

"good" time? In this day of cigarettes, cocktails and corsets parked at the dance, your little girl is just where Sallie is. She must decide for herself. Your protecting arms cannot reach out to her when problems arise. Do not be too smug and self-satisfied about your daughter being "different" from the rest of her crowd. They are all Sallies at heart. Perhaps Sallie's own experience, put down truthfully from the pages of her own life, will help your Sallie to pause before she rushes headlong into the cataclysm that yawns to-day for every young girl.

"I always park here," he animunced; "a good place to take anip, and besides, it's nice and cozy to be away from the rest of the gang. Isn't it, old dear?" He queezed my arm and opening the door, we sat down on the back seat of his beautiful closed car. Instantly he produced a flask and from the pocket of the car a bottle and two glasses. "See, what a thotful little boy I am," said Ted; "cold ginger ale for the ladies."

I propped my silver-slippered reet on the little seat of the car and sighed contentedly.

The moon sailed full and clear, followed by a cortege of little clouds that were puffs of dusk-blend chiff fon from the trousseau of a bride. A soft breeze played in the palms; it even reached up to the little clouds and scurried them faster and faster across the sky.

"Snap out of it," interrupted Ted. passing me a tall glass. "That's fine Scotch, Sallie. Came of an English vessel that just heaved into port."

It WAS good. Then, too, I knew the faint glow of assurance and well being that I had begun to look forward to and enjoy.

Invisible Taxation

receedabbaaadabaaa.

Taxes that work in the dark are always liable to abuse. Taxpayers ought to know what they are taxed and when and why and how.

Niagara power is taxed at the source of production, although most of the people of this state do not seem to know it. Out of every dollar The Niagara Falls Power Company receives for the electricity it sells, 17 cents go to pay for taxes.

In the discussion of rates the fact and amount of taxation is often ignored. In fairness to all concerned it should be more fully realized and generally known.
