Does your last year's record read like this?
If you don't care about the future—if you don't hanker after comforts and security from worry about money—such a record may be all right.

But if you are looking ahead to the time when you and those you care most for will want a home of your own, and other things—or when you will want to start in business, or educate the youngsters—

Good Cooking and Good Groceries Are Inseparable

The best cooking will fail unless your groceries are also the BEST. Inferior brands and inferior cooking go hand and hand, despite the best efforts of housewives to get results. Those who buy have learned from experience that our groceries are the kind to use when satisfying meals are desired. We cater to the needs of the people who want good groceries at reasonable prices.

FIRE INSURANCE

We are writing Fire Insurance in strong Old Line Companies, as we have been doing for over twenty-five years, without a dissatisfied customer during the period. To supply the needs of some who prefer Mutual Fire Insurance, and have previously had it written out of town, we have taken the agency of some very strong mutual companies. We have one mutual company with more assets than twenty companies such as are being peddled in Andover by out of town agencies. We can write your insurance at the very lowest possible cost, and give you protection as good as the best.
