Does your last year's record read like this?

If you don't care about the future—if you don't hanker after comforts and security from worry about money—such a record may be all right.

But if you are looking ahead to the time when you and those you care most for will want a home of your own, and other things—or when you will want to start in business, or educate the young—

Don't have such a record more than once!

Good Cooking and Good Groceries Are Inseparable

The best cooking will fail
unless your groceries are
also the BEST. Inferior
brands and inferior cooking
go hand and hand, despite
the best efforts of house-
wives to get results.
Those who buy have learned
from experience that our
groceries are the kind to
use when satisfying meals
are desired. We cater to
the needs of the people who
want good groceries at rea-
sonable prices.

Another Bunco Game

The newest bunco game is one
that is being worked on unwary mer-
chants throughout the country. A man
enters a store displays a government
badge, and states that he is in the
secret service and on the lookout for
counterfeit money. He looks over
the contents of the cash drawer and
invariably finds four or five "coun-
terfeit" dollars, which he "confiscates."
The whole thing is a bare-faced
fraud.—Ex.

FIRE INSURANCE

We are writing Fire Insurance in strong Old Line Companies,
as we have been doing for over twenty-five years, without a disat-
isfied customer during the period.

To supply the needs of some who prefer Mutual Fire Insur-
ance, and have previously had it written out of town, we
have taken the agency of some very strong mutual companies. We
have one mutual company with more assets than twenty companies
such as are being peddled in Andover by out of town agencies.

We can write your insurance at the very lowest possible cost
and give you protection as good as the best.
