is worth being proud of.

VOL. XXXIX. NO. 38.

FOR THE WEEK ENDING FRIDAY, SEPT. 19, 1924

PASTOR MAC GOWAN TELLS OF OUR "GREATEST PERIL"

Timely Sermon Shows "Internal Corruption" to be Our Greatest Danger.

Within the past week, our government set apart a day to be known as National Defense Day. A test was made, to see where we would stand in case of a national emergency or crisis. There was exhibited and recorded the reserve manpower, from which we might draw for leadership in the event of war or purising. Whatever may be our the Cuba Fair.

Is National Defense Dfs. A test was made, to see where we would and in case of a national emergency or crisis. There was exhibited and recorded the reserve man power, from which we might draw for leadership in the event of war or uprising. Whatever may be our individual opinion as regards the expediency of such a procedure at the present time, the important fact to notice is that it was an official expression of the need and importance of national defense. And we ask ourselves, "Defense against omotting that threatens our life, our security or happiness. We would not think of protection, unless there was something against which we must protect ourselves.

What, then, is America's greatest peril?" When we defend against something that threatens our life, our security or happiness. We would not think of protection, unless there was something against which we must protect ourselves.

What then, is America's greatest peril today? Where are the most insidious and tyeidengous enemies of our country? What are the most insidious and tyeidengous namelies of country, and the relations of the world—the best geographical location, and males of the carth. To the north, a friendly and brotherly people—our neighbors and relatives in traditions, language, tustoms, habits of life, and manner of government—not a single defense of the carth. To the north, a friendly and brotherly people—our neighbors and relatives in traditions, language, tustoms, habits of life, and manner of government—not a single defensive fort along the entire three thousand miles of frontier, nothing to inclinate to the traveler where them is the count, and grant the indicate of the carth. To the north, a friendly and brotherly people—our neighbors and relatives in traditions, language in the country of the carth of the cart

tion. It is not possible to the post geographical location of any country on the face of the earth. To the north, a friendly and brotherly people—our neighbors and relatives in traditions, language, cutoms, habits of life, and manner of government—not a single defensive for the country of government of government—not a single defensive for the country of government—not a single defensive for the outside of the country of government—not a single defensive for the outside of the country of government—not a single defension against the outlaw on the defense against the outlaw on the face of the country of government—not a single defensive for the outside of the country of government—not a single defension against the outlaw on the face of whiteville, in an intoxicated condition. Supreme Court will probably adjourn Wednesday. The jury has been discharged, but court will convene at 10 o'clock for a case from Cuba, Frost vs. Frost for argument before the judge.

No indictment was found against the truck driver, Killbury, whose unavoidable accident resulted in the Hallsport road.

RESULT OF THE PRIMARY ELECTION

Belmont, Sept. 16.—Sixteen in dictments were found by the Grand Jury which completed its work on Friday and the prisoners brot before Judge Crosby Monday when sentences were given to those who plead fairs was tis estition people used on a serving a serving of the serving of t Primary elections have come and gone. There were but two contests in Allegany County for the offices of sheriff and county clerk on the republican ticket. William W. Bush of Rushford, won over Ed. Richardson of Belmont by 337 votes. De Forest Bennett of Allen defeated the other three candidates. Tunsted of Wellsville, Cline of Belmont and Easton of Cuba. The real contest was between Bennett and Tunsted, Bennett winning by 339 plurality.

All, the other offices on the republican ticket had but one candidate.

fore dinner and supper in order that their systems might be better prepared to profit by their food. This, and the fact that they went to bed at eight each night were probably the greatest changes from the usual course of the life. The early bed time, at least, is a health measure which is equally possible for the child at home, given parents with sufficient interest and a little greater firmness than the child's. Any father or mother observing the improvement in nerves and behavior after three full days' of sleep, could not but resolve to
