

"Tune Up"

The air all about you is full of radio messages, but no matter how good your receiving outfit may be, you will hear nothing unless you tune it up and adjust it to the proper wave lengths.

The newspapers may be full of advertising messages but they are lost on you unless you READ them. You are reading this one. There will be others in this space, some serious, some with a kick like a mule, but all will be worth getting in touch with. Watch this space each week. In radio language "tune up" with us. You'll be interested.
