Agrigraphs

Early seeding is essential for a good oat crop; plow in the fall.

Glover and alfalfa are more promising nitrogen factories than Muscle Shoals.

Save time and money by having plenty of crates in the potato field at picking time.

Uncle Ab says he's no politician but he always votes to keep his self- respect as a citizen.

No, time isn't much to a hog, but a warm place in the winter is, and he'll gain faster for it.

Every month the state college of agriculture at Ithaca publishes E 47, a list of all the available popu- lar bulletins. A postcard with your name and address on it will bring it to you in a hurry.

Habits From Our School

Miss Ethnor Fish, physical train- ing instructor, arrived Monday. She will be with us for the rest of the year.

Eighteen boys were present at the first basket ball practice, Monday evening.

The parts for the senior play were assigned Monday by our English teacher, Miss Wright.

The junior class will hold a party at the Andover High School Mon- day evening.

The grade schedules have been rearranged so as to relieve Miss Annette Taylor and Miss McAnd- rew of the work of the double grades.

Now I go to class to sleep,
And if Prof. should call on me
e'er I wake
What could I do for goodness sake!
Signed Bobby

Miss Wright: (reading news item in Andover News: "Emmett Daw- son of Depeew was best man.")
"I'll say he is."

WE WONDER—?

Why Prof. was so sleepy in chemistry class Wednesday morn- ing.

Why "Bright Eyes" has joined the junior class. Ask Dutchie Smith.

Why Doc has changed his name to Billy.

Why some people stay out of school when they have a history topic assigned.

Every day and every way Gerald H. is getting, "Greener" and Green- er."

George, (E. B.) is a cowpuncher but she doesn't know it. She rides about during the night like a head- less horseman looking to get a piece of Greene cheese off the moon.

We wonder why Mary Mac—has a different fellow every night.

Ask Your Lawyer

We are to choose two Supreme Court Justices at this election. Voters should be attentive to this office. There should be no difficulty in the selection of at least one of these.

Justice William F. Brennan is deserving of election.

He has discharged the duties of this office with signal ability. He is not an experiment but has shown as Justice of Supreme Court and Chief Judge of City Court a remarkable attitude for judicial work.

He has that broad knowledge of the law and the temper essential to the office and above all an unquestioned integrity. It is inconceivable that the people will elect in place of Brennan an untried and inexperienced man.

Voters in past years have not given the choice of justice care it deserves.

You may be sure if you will not exercise your rights they will seize them and then the favorite, regardless of his fitness, will be selected.

If there is one office in which there should be no politics it is in the judgeship.

It is a question of the character and ability of the candidate. Judge Brennan has demonstrated that he has all the qualifica- tions of the office.

The public interest requires his election.

You should vote and work for him.

FIRE INSURANCE

We are writing Fire Insurance in strong Old Line Companies as we have been doing for over twenty-five years, without a disat- ished customer during the period.

To supply the needs of some who prefer Mutual Fire Insur- ance, and have previously had it written out of town, we have taken the agency of some very strong mutual companies. We have one mutual company with more assets than twenty companies such as are being peddled in Andover by out of town agents.

We can write your insurance at the very lowest possible cost and give you protection as good as the best.
