

The Beaten Road

IT is much easier—far safer—more pleasant to travel on the smooth beaten road, than to make a short cut through barbed wire fences.

It is far better to build up your wealth by the regular method of keeping a bank account here, than by speculation in wild cat stocks.

Thanksgiving

I hope there is no jasper living who cannot join in this Thanksgiving. I know a certain bard who sings that he's in love with common things. That bard is right, I give him credit, he said a mouthful when he said it. The things we take the most for granted we'd miss the most if they were scant. The greatest blessings of our lives are shirts and pants and friends and wives. We who enjoy their ministrations should some times voice appreciation. You ought to pause when it comes handy and tell your wife that she's a dandy. It's mighty easy in my case in character and form and face, of all the wives that women make, this Hannah lady takes the cake. But if she were some homely party, I'd say the same tho not so hearty. O let's be thankful for the things we'd hate to do without, by jings; be thankful for our appetite which serves us morning, noon and night, be thankful for Thanksgiving day that brings us friends from far away and for the snappy autumn weather that keeps us happy while together. As for myself, I rise to say that I'm a very grateful jay, and when Thanksgiving comes, by gracious, I'm glad my tummy's spacious and feel to crave a special blessing upon the dark meat and the dressing.
