RAILROADS AND SOMEDAY. SEMI-FLYING MACHILE. HEARING THE ATOM. HER AFRICAN BLOOD.

President Coolidge will ask ower railroad freight rates and uggest that the roads can make p the difference by practicing

up the difference by practicing conomy.
That is not the railroad idea, bo ever. President Coolidge will find that rnifroad management and railroad wishes are a department of our Government, although not listed as such in the Constitution.

The voters, when less prosper-ous times make thinking neces-sary, wil decide to have a govern-ment running the railroads, in-stead of railroads running the gov-

stead or railrough running on a cernment.

This is not said unkindly, or by an agent of bolshevism. The writer has a few thousand shares of railroad stocks, a few hundred thousands in railroad bonds. But it is desirable for railroad men to realize that it is not going to be mid-Summer for ever.

There is cold weather coming.

Admirers of the late Theodore Rooseveit will be interested in the statement, made by the authority of the isminy, that, a newcomer from the syrterious realms of the infinite is expected in the Longworth-family.

Mrs. Longworth was Miss Alice Roosevelt.

These who have read Coltent.

Roosevelt.

Those who have read Galton's Heredity know that the greatness of the father is handed down through the son. The low little Roosevelt-log worth may prove to be the remarking to see how his little teeth develop.

Monsieur Laur, eighty-four years old, has invented the aero car, and the French government will build a sample "aero line."

""" car. 7 feet high, 7 feet wide and 40 feet long, is samm led below a cable forty-two feet in the

Look Out! Beware!

The National Disabled Soldiers League is again active in Belmont asking for a dollar for same to help sir, slung from poles far apart. Each car carries 100 passe.gere and the apeed is fifty miles an hour.

Most interesting of all, the ear, hanging below the steel cable, is driven along as a flying machine-is driven. A powe full propeller, nine teet in diameter, which by electic current taken from the cable overhead, pushes the ear. With power crough, and a big propeller, the ear in ght as easily recommended to the car in the cable overhead, pushes the car. Then "New York to Chang above the railroad, in 9 hours, for \$9."

Or. Mary Waker cared little chout fashion, but the latest news from Paris would interest he.

The new "decas" is to be made like trousers that dress, a sort of slit skirt. Politics athletics at common sense will finally do away with the cumbersome skirt. That impediment was all right in the harem, where it was born. Its all vrong on the public street, collecting germs, preventing free movement.

A lawsuit raising interesting questions is coming. A young man named Rhinelander, whose people for several generations have not worked for a living and are, therefore, called "aristocrats," married a young woman with negro blood. Her people have always workel hard; therefore she is no aristocrat. The young man, annoyed by publicity and by the Ku Kluxthrowing stones through his window, now sues for annulment of his marriage, saying he was deceived as to his bride's race. She told him nothing about the negro blood.

blood.

If the young woman in the case fights, the question of her constitutional rights might be taken to the United States Supreme Court. New York State legalizes marriages between Africans and whites. The young woman in this case is nearly white. A man in New York could not get a divorce on the ground that his wife had deceived him about a British or Celtic strain of blood. What will the Supreme Court say about a few drops of colored blood?

Atoms of iron, so small that you wouldn't notice ten thousand of them in the corner of your eye, make a roaring noise as they rush to a magnet held near them. Scientists of the General Electric Company have perfected a divice that trakes the roaring sound sudible. If that's possible, may we not some day hear voices of our distant relations on neighboring planets? It isn't impossible. Nothing is impossible that men can imagine.

disabled soldiers. We have good authority for saying that this or-ganization is neither worthy nor deserving of aid and strongly advise that no money be sent them.

Herbert W. DeLong Post No. 808.

How National Grange Stands in Public Affairs

(Continued from first page)

ground that school questions are purely local to their nature.

Every form of adulteration of food and fiber products and misregesentation in branding or labeling; with strong reaffirmation of former grange demands for an effective truth-in-fabries law.

Value of Team work

Particular emphasis was placed

Particular emphasis was placed on the value of team work for the advancement of agriculture — not alone thru all branches of the grange, but among all rural organizations and with every state and government agency co-operating in grange pledged its whole-heart ed support to a forward-looking program for rural America and thruout its entire session expressed an optimistic attitude towards the future of American agriculture.

Champion Ayrshires

Farmers of Allegany county, New ork, dairy with Ayrshires because their proved profit-making ability ne of the first cows, Henrietts Farmers of Allegany county, Ivew York, dairy with Ayrshires because of their proved profit-making ability. One of the first cows, Henrietta Star 7th, to be officially tested on the farm of L. G. Tucker, Scio, produced 16,668 pounds of 4.15% milk 629.29 pound of butterfat, in senior four years old form. This yield makes her the champion for her age of the Empire State as well as the seventh highest producer for the breed, entitling her to the honor of silver medal cow.

During her record she consumed 1,476 pounds of G. L. F. Milk-Makr, with corn silage and clover hay. She grazed during the pasture sean. Henrietta's milk was sold to he Dairymen's League of New

son. Henrietta's milk was sold to
the Dairymen's League of New
York for \$405.99. Her grain cost
\$136.88, leaving a profit above grain
cost of \$269.11. After completing
this good record she was purchased
by L. W. Hilfiker, Spencerport, New
York.

Pomona Grange Officers

Allegany County Pomona Grange in session at Friendship, Dec. 4-5, elected the following new officers for the ensuing year:
Master, Berton C. Mapes Yorks:
Overseer, S. S. White, Whitesville;
Lecturer, Mrs. Fannie Lamphere it : Concese; Steward, Floyd Mrt. Canceser; Steward, Floyd Mrt. Cancesers Assistant Steward it! Cenesee; Steward, Flovd Mrin, Canaseraga; Assistant Steward, Harold Moulton, W. Clarksville; Secretary, E. P. Ayres, Cuba; Treasurer, J. C. Phillin, Angelica; Chaplain, Mrs. Mabel Mapes, Yorks Kate Keeper, E. D. Crandall, Boli var, Lady Assistant Steward, Mis. Ruth Brenka of Angelica; Ceres Mrs. Louise Crump, Friendship; Pomona, Mrs. Emma Ayers, Cuba, Plane Mrs. Leave, Buddel, Abral
