Naval Parley Fails

OIX years ago the great powers of the world, on the right of way rather than show any crowding disposiinitiative of the United States, agreed to take steps tion, for naval disarmament, at a conference in Washington. This country, which originated the parley, scrapbeing built. The savings to the United States and the N SPITE of the fact that the American people as a home near Belmont August 13. countries agreeing to the program amounted to a stu-

Altho the spirt, the not the letter of the wasning- the world, there are always in evidence the "panacea ton treaty, forbid the building of cruisers, the British people." They may be properly grouped in a class seven and a half years ago, when government since that time has been building ten- who persist in seeing the hole in the doughnut and he moved to Belmont. He was a thousand-ton cruisers which it is admitted are "offen- utterly ignoring the delicious, sugar-coated rim." sive and "aggressive" wessels.

ference. From the very first the representatives of it has so many faults. Great Britain have refused either to limit their cruiser The panacea people, if they can't find a grievance, bra in his neck was broken causing

and the collapse that eventually came was the conse-like a "movement." quence of England's stand in regard to cruiser strength. Of course, there are plenty of wrongs in the a child. In response to the American demand that Great Brit- world-in every community-but they will never be Mary F. Boler, wife of John ain curtail the construction of cruisers, the British righted by the people who see only the hole in the Boler, died at her home in Friendstatesmen have served notice that the only way to meet doughnut. record will be straight. There can be no doubt about this class may be attributed most of the progress of cinity. Besides her husband, she gesture of the United States was in the interest of [economy and for the advancement of peace thrusat the the panacea people when something is to be done. world. The responsibility for the failure of the Geneva conference rests squarely upon the shoulders of our British cousins.

Undoubtedly the reduction of naval armament would make peace more secure. It would release large HYGIENICALLY, at least, it is all right for girls to lean back and prop their feet higher than their gauntlet, there remains no other course open for the once restricted to men. That is to say, a New York United States, in order to keep her self respect, than labor board official—a woman by the way—thinks is to maintain her naval position. The American people is fitting and not improper. are for peace, but not at any price. They would prefer to have ship building curtailed rather than expanded, but if England persists, they will vote any sum of the other way. This principle is now being used money necessary for an adequate navy with greater' unanimity than our British friends can.

Dead Capital

▲ LARGE per cent. of United States government have. Abroad it is considered extremely vulgar. At Abonds and securities have been retired and have an important international conference in France a ceased to draw interest, yet many people are still couple of years ago, the foreign delegates were scanclinging to them because they are good, forgetting dalized when, at the conclusion of the formal proceedthat an investment is worthless if it is paying no divilings, the American delegates put their feet up on the dends. After November 15, the remaining outstanding table when they lighted their cigars. Second Liberty bonds will no longer draw interest. It is estimated by government officials that there anyway. And then the menfolk won't be bawled out are now in the hands of the American people more any more for their inelegant posture. than 30 million dollars' worth of United States securities not bearing interest and some people are still holding certificates which long ago would have been trans-! ferred into issues they represent. Others hold Victory)

honds on which the interest ceased months ago.

Holders of U.S. bonds and other securities would to the best course to pursue.

Sometimes it is possible for a man to be so busy with his assets that he forgets all about his liabilities.

Accidents Don't Happen

MOST people think of accidents as happening, as vertising. It is the testimony of J. F. Owens of an

It has been demonstrated that fires can be re- on the average consumer's bill. that while some automobile drivers have many accidents, others driving under similar conditions have almost none. Once the safety habit is established, it is not diffi-

cult to maintain.

If wars had to be financed in

Auto Discourtesy

care showing discourtesy did not have any to ruin. There are many drivers who act differently when they get behind a steering wheel than they do anymaking them jump to avoid collision, and calling them to get out of their way, they would commonly

be called roughnecks. Yet they do about that thing in a crowded street.

It seems strange that a good many persons who ton of Hornell were united in marare ordinarily well mannered, will yet act in this coarse riage at the Little Church Around and arrogant way. They seem to think it is everyone's the Corner in New York City. Mr. duty to wait for them and get out of their way.
