Community Loyalty

strangely different attitude. her undivided fealty to home by their daily acts, yet brow music.

everyone knows that real community loyalty is rare and is generally placed second to personal interests. followed. The lesson of working in unison may always they enjoy it. ity suffers, and likewise every individual in it. When neither strikes your feet nor goes over your head. divided, reople weaken and damage their own interests. The business of building up is the most logical, even from a purely selfish standpoint.

Andover is fortunate in many ways, and the peo- a sign of affluence? ple who live here need only to look about them to realize the advantages that exist. With such a setting, there is no good reason why the community should not) be prosperous and grow.

are willing to work together for its advancement; by good living at high prices, but they are savers too. The standing up for home institutions; by supporting the tremendous increase in the number of people who have enterprises which contribute to community betterment. invested in sound stocks and safe bonds, added to the coan. This is loyalty to home-loyalty to industries, mer-enormous roll of savings bank depositors is a splendid chants and every agency that is needed in a modern index to American thrift, a quality which until recen-

shoulder.

The Danger Element

element of danger involved when the necessity and makes profitable a system of semi-compulsory savarises for stopping suddenly. One interested in public safety has figured out that a car going 60 miles an the acquisition by former tenants of more pleasant hour covers 88 feet per second; a car going 30 miles places in which to live, and in the promotion of the Surrogates Court of Allegany Counan hour means 44 feet per second; and a car traveling home loving and home owning instinct in greater de-ty, New York State, made by Hon. 15 miles an hour is going at the rate of 22 feet each gree than almost any factor in modern life.

not see another car coming out of an intersecting portunity to attain his ambition. It is the most useful Riley, late of the Town of Andover, not see another car coming out of an interconstant of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, and the file of the Town of Andover, a street until he is 88 feet from it, he has only one sector of building a home out of doily committee the file of the Town of Andover, and the file of the Town ond in which to stop. It cannot possibly be done. If of building a home out of daily earnings. a man is driving at 30 miles an hour and sees another car coming out of an intersecting street when he is 44 present day, many young men who realize the advan- Executor of the Estate of said defeet from it, he has only one second to stop. That is tages of what has been called "constructive indebted ceased, at the Law-Office of Crayimpossible. If a man drives his car at 15 miles an ness." It probably is true that few men ever begin to ton L. Earley in the Village of Andhour and does not see another car coming out of an in- save in earnest until they incur this type of debt. over, N. Y., on or before the 5th tersection street, or a child dodging out from behind inquired a satisfaction about liquidating the obligation day of March, 1928. a parked machine, or a woman with a baby carriage qualities of a real pleasure suddenly starting to cross, until he is 22 feet from qualities of a real pleasure. the object, he has only one second in which to stop. It i

can't be done. It might be well for motorists to make a mental Now it's their speed. note of these figures, and then realize that everyone who speeds, especially in congested districts, is endangering his life and the lives of others.

Farm Prices Continue Up

CONTINUANCE of the general level of farm prices b above that of last year is reported by the Bureau of Agricultural Economics, United States Department of Agriculture, the index of farm prices being placed ers, irrespective of party, would lay down a program at 139 for October 15, against 140 on September 15, that the flood control bill only will be considered, and and 130 in October a year ago. No unusual price declare against the addition of any riders, trimmers, movements are reported by the bureau for the month extensions or modifications which are simply camouending October 15.

Practically all kinds of livestock advanced in price dertakings, during the month, but crops were slightly lower with the exception of oats and apples. The farm price of beef cattle October 15 is the highest since October, nothing much more dangerous than feeding too 1920, the rise being attributed to light seasonal mar- gas. ket receipts which have been considerably under those of last year, and the smallest in six years. Hog prices also advanced due largely to smaller

marketings as a result of improved prospects for corn FOR the first seven months of 1927, 11,448 automo-United States at 1.6 is 1.3 points above last month while the Iowa ratio rose 1.5 points to 12.2. Practically all livestock products including eggs and butter made price gains.

The farm price of wheat was lower, especially in driver's permit for careless or dangerous operation of the important spring wheat producing states, the receipts of wheat at 14 primary markets up to October 15 being among the record movements. Oats, on the license, or after a license is revoked, as it is an offense other hand, showed some tendency to improve. Pota- to have burglar tools or explosives, it would enforce of the crop, and apple prices advanced in prospect of there is no safety. smaller production.

is a cave-man, football built type that she can wrap around her finger.

Love For Music h opens up some interesting possibilities. Istomach, of course, is influenced by the food eaten, s
