# Subsidy and an

There is now before the post office committee of the house a bill that | • f intense and vital interest to every country community. It is a posrates bill introduced by Representative Griest of Pennsylvania. vides new postage rates on several classes of mail, but that part of interest to the small cities and towns of the nation is in connection

Thru preferential rates on third-class mail to the large users of this | 4 mail it proposes to SUBSIDIZE the mail order houses and the proposes direct DISCRIMINATION against the merchants of the

maller cities and towns in favor of the merchants and mail order houses is tied up in a "JOKER" clause in the bill that provides 3 if the total weight of the total number of circulars of one kind to be twenty pounds or more the postage rate shall be one!

Any one piece of direct-by-mail advertising of the mail order houses times twenty pounds, and because the total weight of all of these ! The merchant doing business in the smaller city or the c wished to mail a piece of direct-by-mail advertising to the posrchasers in his town and in the trade territory of that town would mailing list of but a few hundred, possibly one thousand, names The total weight of this number of circulars or small bookwould be less than twenty pounds, and this small city or country! merchant must pay one and one-half cents on each piece as a postperchant the government must pay for the handling and sorting of these ousands of pieces of mail at the office at which they are deposited for illing: the government must transport them on railroad trains for which government must pay the railroads; when they arrive at destination ne government must pay for sorting them by individual addresses and aust pay the carriers for delivering them to the individuals to whom

But in the case of the same class of mail used by the merchants small cities and towns, practically all of it would be delivered rect to the persons to which the pieces are addressed thru but handle the mail that involves these additional costs at twords the charge for which it will handle the mail that does not rese additional costs. During 1927 the charge for handling third-class mail of two ounces

less was one and one-half cents per piece, except for booklets enty pages or more and weighing two ounces or less, for which the of handling each piece of third-class mail was 1.79509—ap- Outline of Address by Har- One Hundred Boys Hear County Fair was held at Largo, last day of the fair. The Beauties l percentage of the more than four billion pieces of third-class mail idled by the Post Office Department. During 1927 the cost of oximately one cent and eight mills. Of this per piece total, .34941approximately four mills—was the cost per piece for transportation and istribution in transit. In other words, it cost the government a very small fraction less; one and a half cents to handle each piece of third-class mail, weighvo ounces or less, when there were no transportation charges.
