places, but this is not altogether true.

the United States, in an editorial, of seeking possession ed at three million dollars. This is only just a small of Nicaragua. Other editorial comment in the news- amount of money, as compared with the billions of dolpaper rings with similar articles which do not speak lars that pass in appropriations with each congress. well for friendliness among nations.

This Pinang newspaper comments as follows: Today's cabled news regarding the internal troubles Nicaragua serves to strengthen a widespread and long-1 entertained suspicion that the United States government intends to establish a protectorate over the little Flanders Fields. republic. She has decided to dispatch a strong force of Marines, ostensibly for purposes of co-operation with the Nicaraguan constabulary in the work of establishing order.

Reading between the lines, two facts of more than ordinary significance become apparent. One is that America, tho she has consistently denied the impeachment, covets Nicaragua; the other is that she has grossly underestimated the military strength of the Liberal forces under General Sandino. Hence the necessity for a strong "punitive expedition." Washington has linals and greatest single cause for crime. seized the opportunity of killing two birds with one

Public opinion in the United States is, on the whole, definitely hostile to a policy of adventure Central America, and it is not surprising to learn, notwithstanding the native message that Colonel Lina bergh is proceeding to Nicaragua on an aerial mission of goodwill, that the democratic press flatly condemns the United States Government for interfering in what When the fence goes out of business burglars is, first and last, a foreign dispute.

Just how far America is prepared to go in Nicaragua is a matter for speculation. At the moment her policy accords strangely with her pacifist proposals. Never tired of putting her finger in the European pie, in crime—too often unpunished. They have ruled that and posing before a sceptical world as the leader of the man who shares knowingly in the proceeds of a light and protector of the world's morals, she interferes in a dispute in which she has no concern, other than that of the safety of her nationals.

friction with Mexico, for that country has long been for all that has been done. opposed to American intervention in Central American affairs. Quite recently, Mexico flung herself defiantly fence. Adequate crime laws must include provisions across the path of the United States policy in Nicara-aimed against the enemy of society and legitimate busigua, and with that incident fresh in her mind, it is unlikely that she will remain quiescent now.

macy. It is too young, and it is imbued with too much], fantastic idealism for everyday purposes. That is a enough to traffic in goods they know to have been fault which time and experience alone can eradicate. stolen by others. Meanwhile, Washington would be well advised to refrain from intervening in the affairs of a people who are not as a rule enamoured of Americans.

An American Victory

A NOTHER good American institution has been given A a clean bill of health. The experts on diet have discovered that the reliable dish of ham and eggs is "The Whiter the Bread, the Sooner You're Dead," but all right. The high brows have been telling us for all thru the ages bread has, and will continue to be years that the old fashioned "ham and" like a great the staff of life. many other old-fashioned American habits was all wrong. But now it is discovered not suddenly but after many years of patient experimentation that this has neither gas nor electricity, no main drainage, no American dish is all right from the dietary standpoint. doctor, movie nor omnibus. That probably accounts The ham is rich in vitamin B but lacking in vitamin A, for it still being a village. while the egg has the vitamin A but is short on the B, What could be sweeter than this?

have had recently. For years they urged us to look forth with the assertion that he didn't know there was down on good old American apple pie, but now this one. toothsome dish has been given the official OK of the experts at least of a great many of the experts. on any one thing.

We have been lectured for years now by the liberals and the internationalists on the shortcoming of everything American from our foreign policy and our royal family. It's too bad that the immigration laws Constitution down to the things we eat and read. But didn't keep it out of the U.S. now the pendulum seems to be swinging in the other direction and there is cause for rejoicing. To win a victory on ham and eggs and apple vie is no small but the modern youngster would get slapped for using American achievement in itself. Who knows? Maybe his fingers. if we keep on trying we will find that some of our other customs and institutions are not so bad after all. There is hope for the future in spite of the insidious but it's still possible to find a long tongue or two in efforts of the internationalists, the cancellationists, the nearly every neighborhood, spinach eaters and lettuce nibblers.

In the meantime there is another consoling thought. In spite of the warnings given them the Am- tion, and divorce is usually referred to as the wishbone. erican people have gone on with their ham and eggs and their apple pie until the experts have come around to their way of thinking. Therefore there is still hope Hope it didn't do anything serious to the onion crop. for other American institutions. Maybe the rest of

the high brows will come around too. _ Times continue to change. It used to be that the county coroner had an easy time gathering the witnesses, while today he has to gather the fragments.

Bricks in Our Garden

VERYONE grows an imaginary garden. There is no individual but what thinks some ime during the day of his garden. When everything runs along smoothly, this imag linery garden of ours is filled with beautiful flowers, land most beautiful flowers are sweetly scented. In these gardens of ours, there are also brick piles. We have a tendency to permit these bricks to accumu-) !!ate. The first thing you know these bricks begin to |

crowd out the flowers, and cultivation ceases. If more people would stop piling up these bricks, then there would be fewer bricks to hurl. How much \$2.00 better it is to hurl flowers, than bricks! Bouquets are \$1.00 appreciated by the least of mankind, and these flowers 50 from our imaginary garden today need a special effort).

Loses from our garden. Constructive criticism in business instead of bricks tossed from our garden usually brings the best results. The biggest knocker or the heaviest hammer, may have no effect upon a genuine \ diamond. The best sport in the world after all, is the The individual who cultivates the best imaginary

garden, does so with fewer brick piles.

The Gold Star Mothers
