# Memorial Day

lend of this month comes that important day known bring on that particular day. as Memorial Day, when we honor the soldiers who have ence and gratitude.

North and the South are united in a bond of union a remarkable service for farmers in all sections of t and friendship. The enmity between America and country. flyers proves this beyond the possibility of a doubt, are broadcasting market reports issued by the govern- a harmonizing color. Painted and which is to make friends, not profits. them honor.

And let us not limit our decorations to the graves must remember all of those we have loved who are farmers, a leased telegraph line is maintained on gone, and all of our national heroes and leaders. For system that covers 7,800 miles. each person in his or her own way is a soldier, battling against heavy odds, overcoming handicaps, making sacrifices for others, and helping in the growth and progress of the Nation. Let us on Memorial Day honor THE rural business man can use advertising with as

Make Decoration Day the occasion for a visit to . the graves, not only of soldiers, but also of all those ' whom you have loved or admired and who have departed this life. Be freshly inspired by the noble example of their lives. It will do your soul good.

# Today

A but some are more indispensible than others. serenity that is seldom, if ever, disturbed. They are last decade? never ruffled because they do not exert themselves Advertising, judiciously used, is the answer. enough to go thoroly into a condition of affairs that demands their attention. They scarcely ever do any farm gate sales profitable and quick. harm in the world and rarely trouble themselves enough to do any good. They are generally popular, but they consumer. command little admiration.

Then there is a second kind who never hesitate to speak their mind when the occasion demands it. a rule, they are fair students of men and affairs, they THE merchant who says that everyone knows his are willing to make an effort to get the facts, reach \ ' a conclusion after a careful study of the situation, and then stand by their convictions, whatever the consequences. They give praise where it is due and they are not afraid to criticise, where criticsm is necessary. They are the constructive citizens of the community, and right or wrong, they are very much to be desired, because they are honest in their opinions.

And the third kind-need we mention him at all' —the chronic kickers who see no good in anything, who question others' motives and who never were known to compliment any good deed or any public-} spirited movement. They came into the world kicking, buttal, Everyone in this community knows all that kick when they have to leave. They are a destructive ! force in society, but more destructive to themselves. The calm and placid citizens are not undesirable, the chronic grouches are very undesirable, but most de-'

# Not Nearly Extinct Yet

Wone recently spoke of a fuel-less motor or engine greatly reducing expenses and actually putting that was destined some day to push itself forward as clothing merchants out of business. the essential for all mankind, but until that day arrives, we still have with us another type of "fuel-less" cessity is, mostly, but an augmented desire. Advermachinery—the horse.

line buggies" were to supplant the horse, not only in in all progress and prosperity—is the creating of new ! travel but in the various lines of work. This predic- desires; thereby stimulating trade and production and tion has only been partly filled, as automobiles have making for the greatest possible degree of employ taken the place of carriages and cabs.

of horses and found that there are something like 16,279,000 of them still in use and that they lack a will make cowards brave. If that stuff is any better long way of becoming as extinct as the American buf- than the bootleg liquor in this country, it will have to

than 15 million horses in use, altho during the World War when a demand was made, this number reached into Africa, and the next thing you know you will be more than 21 million-an exceptional condition. Many of the large concerns, such as the American camel. Express Company, in the larger cities have gone back to horses because they contend along with other big trucking concerns, that where traffic is thick hauls are compelled to wash their faces so often, while their Hydraulic shock absorbers, front and are short and much waiting is involved, a two-horse mother only applies a little more powder and rouge. truck costs but two cents a minute, while a motor truck costs six cents, due to the wear and tear and gasoline cost that goes on when a traffic jam is reached. Numerous riding clubs all over the country are added, "if he was big enough to do it." being formed, so that there is not as much evidence today of horses becoming extinct as there was a few wears ago, when it began to appear as if "Old Dobbin"

would soon be classed as a curiosity.

your 1914 pocketbook

HIS would be a bad year if we L had to meet our obligations with a 1914 pocketbook. Almost every living necessity has gone up 35 to 45% with one conspicuous exception.

Your electricity costs less today than it did in 1914! Interconnected power plants of the Niagara Power System send power back and forth as it is needed. Generating expenses have been reduced to a minimum. Operating costs have been lowered. All these savings are reflected in your monthly bill.

Compared with other necessities, Niagara Power Service is the biggest bargain you buy. You can afford to use it freely.
