FEW women who do housework by hand realize the cheapness of electricity. If they did, they would discard their old-fashioned

You can buy more electric service for one dollar now than ever before in history. While other living costs have almost doubled, the price of electricity has gone down.

Interconnected power plants of the Niagara Power System send electricity back and forth as it is needed - reducing operating expenses --- bringing your service to you at such low cost you simply can't afford to do any housework by hand.
