## A Wonderful Country

LECTRIC light is displacing kerosene in the country many years it has been overshadowed by industrial de-L and gas in the cities, yet the consumption of neither velopment, such as manufacturers, mining, and the oil nor gas has decreased. On the contrary, more gas acquisition of a world-wide commercial trade. and oil are used than at any other time. New uses | The United States is undergoing a similar change | for them have been found, and uses for electricity be- We may point with pride to our 173,000.000 domestic

There is no limit in sight to the expansion of the electric business, for population is continually increasing and wealth is accumulating. But the creation of this business out of nothing is but one manifestation the risks of production. of that stupendous miracle which is another name for

During the time in which the electric industry has been developed, the automobile business has become! one of the largest in the country, the radio has hun-1 dreds of millions invested in production of receiving instruments, the people have money to buy and maintain these things and the money they have paid to the TVERY word that man utters, no matter how light or producers has gone in wages to hundreds of thousands L seemingly insignificant the word may be, has an of workmen and to dividends of millions, if not billions, influence upon himself and upon others. Whether the

## Isolation in Business Passes of uttering only the right words then bed discrimination and of watchfulness.

MEWSPAPER advertising can rightfully be pointed There are various forms of advertising—direct they come by suggestion from without, or as the result of error thought within. High standards of thought influence results, is no doubt attributed to newspapers. Igo The home town newspaper, whether it is published in Andover, or in some state hundreds of miles! away, goes into homes because it is wanted there-be. I cause someone has paid for having that paper sent THERE are 333 electric railways operating almost

merchants send their messages in the same wrapper. of 280 companies operating 5,560 busses during the Those messages form a most vital part of that news- year previous. paper. Advertises of national repute are becoming This year the companies have set aside \$15,000.-

a line of goods used by a large per cent, of the people, power for heavy traffic, especially for short hauls, For stated that his firm spent an enormous amount of mon-the lighter traffic, the bus is proving its usefulness in ey in advertising that business in a magazine of nation- connection with the electric lines, serving as feeders. al circulation. Of this vast circulation within his territory of one state and several sections adjoining, the

and failed to make a single sale. He admitted that if school that money had been spent in the home town newspaper within his territory, he would have had more business than he would have been able to care for. Advertising not only informs the people of the root community that the advertising merchant has the goods!" but creates a demand for the goods where there has been none before. Take your own case for instance, are worth keeping.

How often have you been induced to stop in a store and buy a certain article that you wanted but would and buy a certain article that you wanted but would not have remembered to buy had you not noticed the ad in the newspaner? The age of isolation in business Woolworth building the other day in 13 minutes probad in the newspaper? The age of isolation in business ably had an idea that there was a special sale of some is past and the fellow who wants to progress must kind on the top floor. keep on his toes and stay abreast of the times.

<del>----</del>0----The crying need of the hour is economy, but the only brakes the majority of the people know how to quit working entirely.

Flower beds are beautiful in lawns but the fellow every eight people, and sometimes it-seems as if all <del>-----</del>0----who mows the grass doesn't think so.

## Needless Waste and Prosperity Tremendous Reduction in
