July 2.-Miss Mary I. Baker and ed Messiah. Saul was a great scholar, trained by famous teachers and

> Even for himself there was much to be thought thru. For the bur, pose of having time for meditation and prayer Saul soon left Damascus for some place in Arabia. Clear record of this is found in Galatians 1:15. 118. By comparison note that Moses spent 40 years in special preparation in Arabia for his leadership of Israel out of Egypt, and Jesus was 40 days in the Wilderness, contemplating his great mission after the descent of the Holy Spirit at the Jordan. From the desert school of many months Saul returned to Damascus and again took up his teachings in that city Plots were now laid against this one who had severely persecuted others. Watchers were set to seize him if he fled from the city. These plans were discovered by those who were eager to save the life of this one who proclaimed such a religion of joy and hope. It was possible

avoid seizure by lowering Saul in a basket from a window that overhung one of the walls and so he escaped and hastened to the disciples at Jeru. salem. There Saul had his surprise, for these leaders in the church would not accept him as a convert in view of the way he had made havor i awful persecution, and particularly by having part in the stoning of Str phen, the first Christian martyr. Barnabas was the one who championed Saul and helped them to see

that the conversion before the walls of Damascus was genuine. The were further convinced as Saul "preached boldly in the name of the Lord Jesus" even when many were seeking to kill him because of the position he had taken. In order to save his life the brethren decided that it was better for him to preach elsewhere for a time, and Saul used the opportunity of returning to Tarsus his home town in Cilicia. He remained there until they wanted a preacher at Antioch where already there were many converts, and many more were daily inquiring about the Jesus Way of living. It was at Antioch that the "disciples were first called Chris-

Fine Voile,

Pictorial Review Week

A group of college men representing the Pictorial Review Company are making a house-to-house canvas. One of these students will call at your home to explain Pictorial Review which illustrates the New

Through him you may arrange to receive Pictorial Review every month. He will offer nothing else and will carry with him his official credentials.

These are the men now in Hornell: RAYMOND SCHULZ, Supervisor

Syracuse University. LEE MILNER,

CARROLL BOWEN University of Buffalo. H. F. BOWEN,

Riverside Military Academy.

University of Pittsburgh. You will find these young men, gentlemen—clean-cut, wide-awake and ambitious. This store, as agent for Pictorial Review Patterns, is glad to endorse them.
