Beating the Moon. Sinkable Life Guards. A Noble Effort. A Woman at 49.

Men have already beaten the moon in its journey around earth. The moon takes a little more than twenty-seven days. Fliers have made the trip in 23 days. Beating the moon around the earth is one achievement. The next will be to TIE the sun in its apparand Charles Vancleaf of Cuba. ent journey around the earth. With machines flying 1,000 miles an hour, gentlemen wanting a prolonged sun both will be able to fly around the earth for 24 hours or and Mrs. Foster Manning, Hving
