Homemade fruit child educates himself. The best sets, and brooms will develop cake, decorated with cherries, cit-toys, therefore, help the child to dramatic qualities in children. ron, candied pineapple, and almonds form desirable habits. and packed in tin boxes tied with. The child between two and six! A kitchen cabinet, a serving table mas shopping. The college suggests ery school connected with the state -these are some of the useful the following recipe taken from a college, small children use large Christmas gifts welcome to any Pratt Institute cook book. To make from 12 to 13 pounds use large building materials which home at small expense. of fruit cake, add one and one-third' pounds of brown sugar, one-fourth' teaspoonful of soda, four teaspoon. fuls of cinnamon, one tablespoonfu! of nutmeg, one and one-half telspoonfuls of mace, and four teaspoonfuls of allspice to one-half

pound of flour. Cut one gound of blanched almonds and one and onehalf pounds of citron into thin strips; chop two pounds of Sultana raisins, two pounds of seeded raisins, one pound of candied cherries, and two tablespoonfuls of candied oranges into small pieces; and add' this mixture to one pound of currants. Then mix one and one-half! pounds of flour with the fruits. Beat 12 eggs and add two cups | of jam heated so it mixes readily, four squares of melted chocolate, one cup of molasses, one cup of cider, and one pound of softened but-

ter. Add the wet ingredients to the dry ingredients and mix them thoro-! The pans should be lined first? with brown paper, cut so that the edges of the paper will lap over the corners of the pan, next with a sheet of oil paper, and finally with another lining of brown paper. Pour ir the mixture cover the dish with oil paper, and tie a piece of cheesecloth over the pan to absorb the moisture. Steam the mixture for three hours and then bake it in an oven of from 275 to 300 degrees Fahrenheit for an hour. Roll the cake in a clean cloth, and keep it in a tin-lined bo to prevent it from drying. If the cake is to be packed j

round tins, it may be baked small round pans or baking powder cans; if it is to be packed in gif' boxes, it may be baked in large tin' and cut into small pieces when is still fresh.

Uncle Ab says that evening's regret to see so little done isn't half so bad as morning's discouragemen at the tasks ahead.

It is said that if the United States cold storage facilities were united into one ice-box, it would be a mile long, half a mile wide, and nearly 48 feet high. Annual farm and home week will

be observed at Cornell from February 11 thru February 16. If you want to hear up-to-date discussions of farm and home topics, concerts, plays and contests; see your friends; and renew acquaintanceships; come to Cornell for farm and home week. Do you know how to prune your

apple orchard; when to cultivate; how to use fertilizer; when to thin; when to spray? Now is the time to finish this year's work on the orchard and plan for next year and better results. You can get a bulletin on the care of the mature apple orchard by mailing a postcard requesting bulletin E114 to the office of publication, state college of agriculture, Ithaca, N. Y.
