ment of Agriculture. Home Week will also include lec- dy. From eight to twelve pounds, ary 13, Dr. Babcock will discuss milk houses; and James D. Brew weak. Fowls, leghorn 22 to 25c per bread. will discuss lowering the bacterial count in milk. Dr. W. B. White, di rector of the state food laboratory at Albany, will conclude the day's program with a talk on observations during several years of testing for

butter fat. Five lectures will be given on February 14. Dr. Paul B. Brooks, deputy commissioner of health at Albany, will speak on a few month's experience with the new state sanitary code; Berne A. Pyrke, commismioner of agriculture and markets at Albany, will discuss some legal aspects underlying city milk control; and Leslie C. Frank of the United States Public Health Service! will discuss the trend of sanitary milk supervision from a national point of view. A discussion of milk as a public health problem will be given by Dr. Louis I. H. rrls, general director of public health tervice of national dairy products corporation; of New York City; and a talk on protecting our milk market with quality, by H. H. Rathbun of the Dairymen's League co-operative as-

STATE CROPS

sociation will close the program.

From New York State Dept. Agriculture & Markets Dec. 19, 1328. Potato Market Dull

White potato trading was exceed-! ingly slow again this morning at various terminals in New York City and Brooklyn, according to the New York office of the New York State Department of Agriculture and Markets. The tone of the market was dull but price changes were small and unimportant. Up-state New York sacked round white potatoes wholesaled at chiefly \$1.85 per 150 pounds. Maine, Green Mounthing brought \$1.90 to \$2.10 for the same quantity.

Apple Market Steady The demand for apples was light, nevertheless, the market situation and values on state barreled and basket offerings remained about unchanged. Washing on Spitzerberg apples in boxes jobbed out at \$1.50
