Perhaps you have a fine stock of goods of exceptional value. Perhaps it is quoted at extremely moderate prices. Your windows may be more attractive than any in town. But who knows those prices if you don't consistently advertise them? What proportion of your trading area population passes your windows when compared with the number of prospects that the Andover News talks to every week? This paper has for years been helping to sell merchandise successfully for the most progressive merchants. It is a Magic Carpet of Trade.
