some folks persist in overworking.

Muscle Shoals Again In Limelight

THE opponents of government operation of the huge town or to the next person who happens to knock at Muscle Shoals plant have, so far, been successful your door. in their fight against legislation which would inject the federal government into the electric power and fertilizer business. But now it seems that another chapter North. is to be written in this 12-year-old controversy after the incoming President and Congress are seated in

There was much interest manifested in the recent make ment operation of the plant and on that occasion he velop their minds to a point approximating the inher- out seeing some specimens. If the made definite statements which leave no doubt in the

hotly contested on many occasions. There are many tenth has been estimated as most nearly correct for the real pest. These tiny white interesting arguments on both sides of the question. It the majority of men. trates for military purposes, and costing millions left to ruin. It would afford a great source of cheap power and of much needed cheap fertilizer to farmers. On the other hand, operation by the government. vate industry which would lead to price cutting and needless loss. There is already ample power facilities in the territory that it would serve. And there would

be many complications arising. At least it will be interesting to see what becomes of the movement under the new regime of government It seems to be very possible that the legislation . federal operation will pass the new Congress and if does, receiving the official approval of the President, will tend to conclusively prove whether or not gover. ment ownership and operation of an industrial enterprise can be successful.

Real Crime Remedies

THE late Calvin Coolidge made some remarks on crime and respect for law and order that are of vital in terest to every American citizen.

In one address he said that "if around the nation's if it were against the law. fireside, respect for authority, reverence for holy things and obedience to parental-discipline -are-taught, the surest foundation for peace and lawful order will be

cible. Efforts in that direction have too often reacted prevention of excessive fatigue, depend a great settias. The cuttings are rather difto the advantage of the criminal, by restraining the deal upon posture—the way we stand, sit and walk, ficult law-abiding citizen. But what we can do is interpret That is why it is most important that the person who would have success with them. Howand expedite our present laws and procedure, that example, crime will be discouraged.

Then, if we will add to this, the early training or the child by the standards that Calvin Coolidge sets, forth in the quotation above, we will have gone a long slightly back but in line with the chest, the feet ex- shoots which will bloom next Christway toward reform.

sist obliteration and escape punishment. The majority see that your body is in perfect balance when you are ignorant or slothful to prepare the child for decent When you stand with your chest dropping, your stom- to cause aches and pains in legs and everything in nine cases out of ten. If the child is advantage—and what is worse, this postition causes good and taught right, then the adult will be good.

Jig-Saws

no cause for alarm, you will be before long, it's only a matter of time. Everybody's doing it.
