Being the "First Lady of Land" and mistress of the White House is not all social grandeur, . . Mrs. Franklin Roosevelt knows that fact already, being faced with the personal task, of cutting White House expenses 20 per cent., in line with the new President's promise to reduce all governmental expenses to that extent. Mrs. Roosevelt says she has planned to get along with "nine or ten fewer, servants," which is taken to mean that she herself will be her own. housekeeper and battle the budget.
