ANDOVER NEWS PUBLISHED WEEKLY

By J. HARVEY BACKUS & SON OUR KEYNOTE:

"If There Is Not A Way, Cut A Way" Congress, at the Postoffice at Andover, N.

of the "Backus Boys" attitude on prohibition.

his feathers unsinged. But our friend Carl has done milk or any other non-intoxicating beverage. a good job at the scorching this time, as is evidenced by the following chatter:

Brother Backus and Bitter Brew According to all rules of the game as laid down by Republican newspapers of the county, the two Democratic papers published in old Allegany, the Democrat and the Andover News, should stick together thru the bitter battles of the day and agree on every subject, even if one should advocate sale of the Statue of Liberty to Soviet Russia. For some reason these rules do not seem to fit into our way of thinking and we are inclined by no small urge, to take our good friends, the Backus graced one of their pages in last week's edition. The name of this treatise was "Bitter Brew," meaning BEER. From what we gathered as a result of our careful perusal of the facts as set forth in the editorial, we are very much inclined to suspect of our Brothers of being just a wee bit arid. In fact, and of course confidentially, we are here willing to bet our last two bits that they are so dry that the paper they print their sheet wouldn't even smoke in the proverbial Inferno. It is also our opinion that the Backus boys have

gone so dry that some of their opinions are radical enough to satisfy Old Man Hitler himself. In his editorial, which we believe must have come from the News typewriter as no other credit is given, Mr. Backus sneeringly refers to the "supersensitive brewers" and the "narrow-minded hotel men" who refused to allow any Roman holi day celebration in honor of beer's re-birth. Isn't it possible, Mr. Backus, that there are many wets in this country who really believe in a well regulated beer business free from the wrongs which characterized the business before prohibition? Are you unwilling to admit that these men are attempting to place the sale of alcoholic beverages on the same high plane with the sale of tobacco and the showing of good clean amusements to the people? gangster, is that reason to believe that we are also yet, that we would suggest that the Wellsville

people to drink. We have not yet reached the point where we are willing to sacrifice every vestige of home life for the sake of boosting the sale of graceful plan in Andover rather than support legal | hibit anything and that is to absolutely prohibit it by a circular 251-C which is obtainable control of alcoholic beverages?

Mr. Backus further says, "There is little joy the repeal wave which has already swept over even if some of these conditions should return, they could not possibly compare with the situstion as it has grown under complete prohibition. Today we find the streets of an entire nation dotted with millions of speakeasies and manned by very principles of the Constitution.

We are very much inclined to believe that our old friend, Mr. Backus, has fallen into the make regulation of liquor possible and sale legal thize with suffering who has never suffered.

reasoning is narrow and pittful and we supplies

Prohibition Has NOT Failed belief and only hope you are as sincere in your attimake each one a senarate communitude. We cannot reconcile our mind to the belief that make each one a separate communi-

Yes, we got ours. We have been expecting it lo liquor drinking is not a crime in the individual, and cation. Carl N. Marshall's Allegany County Democrat, all the one who offers for sale poison to his neighbor, H. H. V. asks: "What is instant sounds like that of an old hen with A farm garden saves money and done up in dynamite. It was just a Jim Dandy roast whether he is licensed or unlicensed to commit this sin. of the "Backus Bovs" attitude on prohibition.

| Bordeaux and how is it made? Does a grain of corn lodged in her wind| it cost more than the usual Bor| pipe! | The free Cornell bulletin about the We do not believe a government has a moral right to deaux mixture?" Ever since this Marshal boy hit Allegany county license a wrong. If it is wrong to sell liquor it is Professor M. F. Barrus says: "In- gusting. My work as a physician, bulletin from the pen of the late some six years ago, not being able or unwilling to at equally wrong for our government to license its sale, stant Bordeaux is exactly the same takes me out in all sorts of weather, Bob Adams, and is considered one tempt to write news, and being obliged to fill his col- and thus become partners in the crime themselves, as Bordeaux made in the usual way and at most all hours. There is of the most interesting college bulumns with something nearly every week he has picked Governments are organized to protect society from but it is prepared more rapidly. The much exposure—we call it that—letins. It may be used as an all-
