No Magie **Jenie** Will Make fou Profits: It's Up to

This is no time for defeatism! No time is the right time for laying down on the job. In spite of difficulties, the making of profits is up to YOU. There are no Aladdin's lamps to rub, no magic genies to precipitate gold out of thin mists at your bidding. If profit is to be made in your business, it will be by the sweat of your brow, the use of your brain and the advertising columns of the Andover News that you accomplish it.

Before times can be normal again we will all have to be normal ourselves. Get back into normal and you will see others following your example. A wise man has said: "If you have nothing that will pay you to advertise—advertise your business for sale."
