NEW Air-Cooled
ELECTROLUX
THE Gas REFRIGERATOR

FROM a vital development in the science of home refrigeration—such as you now get in the New Air-Cooled Electrolux—you can EXPECT MORE.

For one thing, expect more economy. Electrolux has no moving parts. It uses no water. The tiny gas flame which circulates the refrigerant consumes still less gas than formerly. The refrigerant is hermetically sealed in rigid steel and needs no renewal. Air-ordinary air-conditions it. And an automatic shut-off completely protects the flame.

But lower operating costs only begin to tell the story! Expect silence—utter and permanent—with Electrolux. Expect such exclusive features as adjustable split shelves, two-temperature chilling unit which insures constant uniform cold, and automatic trigger release on ice trays as well as porcelain interiors, non-stop defrosting, plenty of pure, sparkling ice cubes, extra food space. When you examine our showroom—expect to find the very finest refrigerator that money can buy! For you will—in the New Air-Cooled Electrolux! Yet prices are lower than ever. Terms liberal.
