

DAWN!

The New Day
Proves This
Stronghold
Trustworthy

As night passes and the light of a new day comes, you can look with a calm, appraising eye at this stronghold that guards your wealth and find that it has again proved trustworthy as it has for 27 years. We continue the policies that have been once more tested and proved true. We acknowledge the confidence of old depositors with thanks, and welcome the new.

Honest

"Yes, my boy, I'm a self-made man."
"That's what I admire about you. You always take the blame for everything."

Between Hay and Grass

Is the most difficult time of the year for your dairy, especially those that are milking. They are hungry for green feed and will, when they are let loose on spring pasture, eat a quantity of forage that isn't good for them.

This will produce stomach ache, bloating and indigestion. You know how uncomfortable stomach ache is for us folks who have only one stomach to ache—think how much worse it would be if like the cow you had four of them?
Kow Kare, the great scientific conditioner, appetizer and aid to digestion should be a part of the every day ration during this critical period. A large package costing one dollar and one cent, in cash, will return its cost many times even with milk at present low prices.
The frugal dairyman will always have a package on hand.

Cleaning Time

Before you put away the winter duds, clean them. Clean things are less liable to attract moths.
Varnolene is a safe and sure solvent of all soilage, grease or body odors, and is reduced in price for this week-end to 29 cents a gallon. In bulk only. Bring your own container.

Onions From Sets

Is the practical and sure way of a good crop that will supply your table all of next winter.

Time now to put in your sets. The earlier they are started the more onions you will harvest next fall.
LEONARD'S EBENEZERS are best—plant them four inches apart if you wish large onions from the same bed plant two inches apart and when ready for the table pull every second set.

We have an adequate supply of Leonard's Ebenezer Sets that will produce large solid stock with no scullions.

Goods, cheaply priced because poorly made, rob the seller of self-respect and the buyer of satisfaction.

Not How Cheap

Time to get out the Screen Frames and pick out those that need new wire. Seems such a short time since they were covered last but now they spatter rust and allow the small flies and bugs an easy road to the interior.

Cover them this time with Bronze Wire Cloth, cost is only a few cents more, but gives you a cover that will last as long as the frames themselves. We supply pure Bronze Screen in fine mesh the exact width you need and at lowest prices.

Young Men

Do you want to spend part of the summer in a Military Training Camp? Time to enroll now. The government pays all expenses.

We will tell you how to get application blanks. Just call and ask questions.

Glider

A comfortable piece of furniture for porch or lawn. We have a very nice one left with us to sell as the owner has no place to use it.

It is a \$25.00 outfit, all complete, ready to set up and is offered at just half price, \$12.50.

If you are interested come in and look it over. We believe you will agree that it is a real buy.

60 to 80 Bushels

Of seed potatoes treated with each pound of Semesan Bell, this means not more than one and one-half cents a bushel.

Semesan Bell is one of the easy methods of cutting the growing cost of your potato crop, because this treatment does increase yield from 15 to 20 bushels per acre.

Baby Chicks

Will thrive and grow better stock if given a good start with Urbans Steam Cooked Feeds—grains or mash.

Correct feeding at the start saves many a chick from an untimely death. The mortality in some yards is tragic and so unnecessary. Cooked food is your remedy.

Mother: "Billy, don't go too far out in the water."

Billy: "Aw, daddy's out a long way."

Mother: "I know, dear, but your father has his life insured."
