SPRING SOLIQUY OF A PESSIMIST—"Man is only a worm of the earth! He comes along from no one knows where, wiggles about a while, and then some chicken gets him."

Safe Tires

Every day cars are smashed and people injured or killed because a tire blew out at a critical time.

All of us strive for the greatest possible mileage from our auto tires, so watch your old shoes and tubes—protect them with Blow-Out Patches and Stik-Tite self-vulcanizing repair sheet. You can buy two large Blow-Out Patches and a tube repair kit for a quarter. Can you afford to take chances?

Plow and Drag

Fertilize, do everything you know, and the best you know how in the preparation of your corn patch, either for silage or green fodder and unless you select the right seed corn you have lost out on the crop.

Giant Ensilage Native Seed Corn has proven its superior value in every test; more and better feed, earlier maturity and you sow less because it grows 100% and stools out more vigorous and productive.

Giant Ensilage is very cheap this season, \$1.95 per bushel. Early buyers will secure a full supply.

In no season for years has our stock been equal to the demand.

Choose Your Oil

And don't let anyone bluff or scare you into paying too prices for so-called especially processed lubricant. Tixid Full Bodied Motor Oil is your way to get the safest and most serviceable motor protection at the lowest cost.

When you buy Tixid you are not paying for any frills or radio gags, you are buying high quality lubrication for motor cars, trucks, tractors or any sort of gas engines at just as close to refinery cost as is economically possible; \$1.00 for a sealed two-gallon can, medium or heavy grade with all taxes paid.

Not just any oil, Tixid is the name—ask for that and accept no other.

Solid Braided

Cotton lines regular sash cord quality, 100-foot-long, clean, flexible and stronger than ordinary rope three times as large.

Still available at 83c.

Notorious Shaves

The act of shaving has great antiquity: "And thou son of man take thee a sharp knife; take thee a barber's razor and cause it to pass over thy head and upon thy beard," Ezekiel V-1.

Now Ezekiel was a priest of the temple in Jerusalem but in the year 597 B. C., was deported to Babylon where he later became a Hebrew prophet; but to go back a little farther some 4,000 years before that time a race of men appeared in Babylonia called Sumerians who represent themselves as having smoothly shaved heads and faces.

Just what type of razor was current in those far off days is problematical. But probably a sharpened piece of bronze.

It's a far cry from that day to this, with its safety razors and keen blades of refined specialized steel, and if you are not using Probak or Blue Gillette Blades to keep your face suitable for appearing in public you are not taking advantage of the easiest and most comfortable manner of performing that necessary and frequent task.

Blades are reduced in price—Probak 5 for 39c; 10 for 75c.

We carry all sorts of blades to fit your favorite razor, also an assortment of Soaps and Brushes. May we serve you?

Spring Rains

They seek out a place to squeeze thru and make a mess, rotting out roof structure and smearing their dirty finger prints over ceilings and home furnishings.

Frequently some good Asphalt roof paint or plastic cement will repair these annoying leaks at trifling expense.

Grass or Turf

Which sort of lawn do you prefer? With a grass lawn weeds at certain seasons will be annoying, in a turf lawn weeds cannot exist because the seed that grows turf fills the soil so completely with roots that weeds are choked out.

Use Vigoro for fertility and our own mixture of lawn seed if you wish an enduring, velvety turf lawn.

This is the season of the year when the gardener must decide whether it is cheaper to buy vegetables or back plants.
