When food money is low, special care must be taken to buy foods which protect health. That means, first of all, milk and whole grain cereals and breads; next, potatoes and a little fat to eat with them; and then, as money permits, buy tomatoes or oranges, a vegetable in addition to potatoes, a second fruit, codliver oil, eggs, a little meat, more fat, and a little sugar or molasses. A bulletin, Low Cost Food for Health, sent on request, from the state college of home economics at Ithaca, N. Y., helps you to plan wholesome meals with little money.

JUST 46 POUNDS OF FAT GONE

Feels 20 Years Younger

"I surely can recommend Kruschen Salts. I reduced from 156 to 110 pounds, my natural weight and I feel 20 years younger. A pinch a day, keeps the fat away." Mrs. Velea Walter, Seattle, Washington (Dec. 30, 1932).

Once a day take Kruschen Salts—one-half teaspoonful in a glass of hot water first thing every morning. Besides losing ugly fat SAFELY, you'll gain in health and physical attractiveness—constipation, gas and acidity will cease to bother—you'll feel younger—more active—full of ambition—clear skin—sparkling eyes.

A jar that lasts four weeks costs but a trifle at any drug store in the world—but demand and get Kruschen and if one bottle doesn't joyfully satisfy you—money back.
