Typists

Ruth Whitney, Willard DeRemer, Donald Kays, Francis Vickers.

## EDITORIAL

### HONESTY IN EXAMINATIONS

You no doubt read the editorial on "Preparing Yourself for Examinations." Of course it is essential that one should be able to pass the examinations, but will you be able to do it fairly? Cheating shows cowardice. A person who cheats is afraid to admit defeat. These kind of people are the ones who make the poorest citizens. A person who takes his examinations fairly and flunks them deserves much more admiration than a person who passes with the help of others. A person who helps a cheater is committing as much offense as the one who cheats.

When you take an examination this June, remember these things and use your own brain and not some one else's. Don't be a parasite. You won't be proud of your marks if some one else has helped you attain them.

### SENIOR PROM A SUCCESS

Sixty Couples Attend Dance  
The Senior Prom, which was held in the gymnasium of the high school Monday evening, May 29th, was a big success, both financially and socially. Approximately 60 couples attended this program dance, the most successful social event of the school year.

The dance was well chaperoned by eight faculty guests. The gymnasium was appropriately decorated for the occasion in blue and white, class colors, and lilacs. The programs carried out the color scheme. Refreshments were on sale at the pop stand. The Allegany Serenaders provided good music. It is hoped that a Senior Prom may become an annual event.

### ALUMNI IS HIGHLY HONORED

Ralph Williams Editor of Kanakadea  
Ralph Williams, a graduate of Andover High School in the Class of 1931, has been honored by his fellow students at Alfred University. Ralph, a Junior next year, has been elected editor of the Kanakadea, the annual Senior Class book which is issued by the Juniors. We all wish him more success at Alfred.

### SIXTH GRADE HAS PET AND HOBBY DAY

The sixth grade held a pet and hobby day last Friday afternoon, May 26th. There were alligators, dogs, a kitten and several turtles on display. Paintings, embroidery work, manual training work, a little barn and a small ship, were the hobbies demonstrated.

Jack Saunders' kitten and Dolores Farwell's dog were the most popular pets on display. The other lower grades came in to see the exhibit.

### SID MILES' ACROBATS VISIT HIGH SCHOOL

Wellsville Stars Perform at School  
Sid Miles and his troupe of acrobats performed for Andover High School and the grades last Thursday afternoon, May 25th. The entertainers are members of the physical training classes in Wellsville and they include several skilled boys and some little girls. They are all well trained in these stunts, which they performed for the school. The program was greatly enjoyed.

### SENIOR BALL

To be Held the Night After Commencement

The Seniors are going to sponsor a farewell ball on June 29th, the night after graduation. It will be held in the High School Auditorium and will be organized under the same plans as was the Prom. All should plan to attend this dance.

### HIGH SCHOOL ASSEMBLY

Mr. John Armstrong of Olean, who has just returned from the Century of Progress Exposition at Chicago, delivered a descriptive lecture on the fair to the students of Andover High School Thursday afternoon, June 1. Mr. Armstrong was a very interesting lecturer.

## ANDOVER TRACK MEN TAKE 3rd PLACE IN COUNTY MEET

Andover track men took third place in the county meet which was won by Wellsville with 72 points. Bolivar was second with 31 and Andover was right behind with 30. Andover and Bolivar were tied until it came to the last event, the relay. In this event Bolivar took second and Andover third, thereby giving Bolivar its margin over the local team.

Potter of Bolivar was high scorer with 11 points, closely followed by Cannon of Andover and Hartman of Wellsville with ten points each. Hartman, Wellsville colored star, broke the record in both the 100 and 220 yard dashes, while "Male" Brundage of Andover tied the broad jump mark of 18 feet 11 inches held by Rockett of Friendship.

Altho the local team only won two events they scored in every field event but the discus and also in the half and quarter mile.

In the high jump James Cannon came thru to win in easy fashion as he cleared the bar at 5 feet 4 inches. Brundage won the broad jump and also tied for second in the pole vault with two other men. Cannon also scored a third in the javelin and a fourth in the shot.

Don Lynch took second in the half mile after being passed by Perkins of Friendship about 15 yards from the tape. Clarke took an unexpected fourth place in the 440. Clarke had not run in two weeks and was not expected to place. H. McAndrew with a fourth in the high jump and Baker with a fifth in the shot were other Andover winners.

Joe McAndrew ran a pretty race in the relay in which he ran as first man. He pushed Hartman of Wellsville to his utmost but a Bolivar man cut across in front of him and made him lose valuable ground just before he passed the baton.

The first two men in each event will represent the county at the Sectional Meet to be held at Rochester on June 3rd.

Andover men who are going are James Cannon, Brundage, Lynch and Clarke. They will make the trip in a large school bus with the rest of the winners.

Team score: Wellsville, 72 points; Bolivar 31, Andover 30, Belfast 18 1/2, Alfred 9, Friendship 9, Belmont 9, Cuba 6 1/2, Whitesville 5, Fillmore 4.

Individual scores: Potter, Bolivar 11 points; Cannon, Andover, 10; Hartman, Wellsville, 10; DeBarbieri, Wellsville, 9; Brundage, Andover, 8; Jones, Dye and W. Gordon, Wellsville, 8; W. Gordon, Bolivar, 8.

Summary: 100 yard dash—Hart, Wellsville; W. Gardner, Bolivar; E. Potter, Bolivar; Ray, Belmont; Forhan, Wellsville. Time 10.8 sec. (new record.)

220 yard dash—Hartman, Wellsville; W. Gardner, Bolivar; M. Jones, Wellsville; Forhan, Wellsville; Reed, Friendship. Time 23.5 sec. (new record.)

440 yard dash—Jones, Wellsville; W. Gardner, Wellsville; Palmer, Belfast; Clarke, Andover; Wald, Friendship. Time 57 sec.

880 yard run—Perkins, Friendship; Lynch, Andover; Dye, Wellsville; R. Smith, Alfred; Jacob, Alfred. Time 2 min., 12 sec.

1 mile run—Dye, Wellsville; Taylor, Whitesville; VanCampen, Belmont; Wilkins, Friendship; Rogers, Alfred. Time 5 min., 8.7 sec.

220 yard hurdles—Potter, Bolivar; Ward, Bolivar; Howden, Wellsville; Donnelly, Bolivar; W. Gardner, Wellsville. Time 25.5 sec.

Shot put—Sisson, Belfast; Bloomster, Fillmore; Miller, Wellsville; Cannon, Andover; Baker, Andover. Distance 36 ft., 7 in.

Discus—Scholes, Alfred; DeBarbieri, Wellsville; Potter, Bolivar; Ward, Bolivar; Palmer, Belfast. Distance 99 ft., 9 in.

Javelin—Ludden, Wellsville; Mills, Wellsville; Cannon, Andover; Sutton, Wellsville; Robbins, Wellsville. Distance 109 ft., 10 in.

High jump—Cannon, Andover; tie for second between Homes, Cuba and Curcio, Belfast; fourth, McAndrew, Andover; Minto, Wellsville. Height 5 ft., 4 in.

Broad jump—Brundage, Andover; Kyle, Belmont; Mills, Wellsville; Collins, Belfast; Sisson, Belfast. Distance 18 ft., 11 in. (new record.)

Pole vault—DeBarbieri, Wellsville; tie for second between Smith, Cuba Ludden, Wellsville; Brundage, Andover; fifth, Kenyon, Belfast. Height 9 ft., 6 in.

880 yard relay—Won by Wellsville; Bolivar second; Andover, Belfast. Time 1 min., 40 sec.

### EIGHTH GRADE TO HAVE COMMENCEMENT EXERCISES

Hope Students Named

The eighth grade will have Commencement exercises this year. The date for the eighth grade graduation is set for June 24th. The teacher, Miss Margaret Kelley, has named the hope students of the class who are Jean McLaughlin, valedictorian and Elida Clark, salutatorian. This will be the first time the eighth grade has had commencement exercises.

## THE SPY

Well here I am, after spending a somewhat hectic night at the Senior Prom. I don't know whether I've said a good word for anyone or not this year, but I must congratulate the Seniors for the well organized prom.

I guess Joe McAndrew will go home at quarter after nine from noon. Some of the boys were forced to send him home Sunday night.

Red Ed. still seems to be falling for the lures of Red Head, judging by his numerous intermission at the Senior Prom.

How long is it since Gabby Gath has been down on Stevens street in our fair suburb? Not so long!

My assistant published the column last week and did good for an innocent little girl.

I was certainly disgusted at the Prom last Friday when I saw the way one of the Seniors acted.

And so with Con going back to Leah, I leave you.

### FACULTY NEWS

Miss Leo, Miss Kelley and her sister and Mrs. Connors spent Saturday in Rochester.

Miss McLaughlin spent the week-end at Avon and Geneseo.

Miss Quinn, Miss Twamley and Mr. Tubbs of Avon and Mr. Flood of Lima visited Miss McLaughlin Friday evening and attended the Senior Prom.

Miss Beman spent the week-end at Geneseo.

Mrs. Schwarzenbach and Miss Baker spent the week-end at Geneseo.

Miss Holden of Dansville was a guest of Mrs. Schwarzenbach, Memorial Day.

Miss Paine spent the week-end at Geneseo and attended the dedication exercises of the Practice School.

Prof. and Mrs. Hardy entertained friends over the week-end.

Prof. and Mrs. Hardy passed Memorial Day in Belmont.

Mr. Perrone, Kenneth Alvord, Miss Leo and Miss Kelley motored to Pennsylvania Sunday.

Miss Trenkle was in Dansville on Memorial Day.

Prof. and Mrs. Robert Hardy, Mr. and Mrs. Harry Joyce, Patrick Perrone, Miss Margaret Kelley, Miss Annette Clifford and Miss Mary Jo Russ acted as chaperons at the Senior Prom.

### BOE ZECKLEY

Dear Boe:  
Something has come over me, Boe. I can't eat, sleep or study. Are there symptoms of love? I really have been in love for some time but I was the only one who knew it.

I am a wise boy (so my mama says). I am quite handsome and have good-looking clothes. Yes, I even have a car. But, somehow I'm a flop with girls. They don't seem to like me. They say I'm too short and "sissified." Can you tell me what to do? I feel like ending it all.

Distressed—Wizzle.

Dear Distressed Wizzle:  
Heavens, no! Don't end it all, Wizzle. I'll admit you must be a nice boy and wear attractive clothes. Of course you can't help being short. Therefore you must go with small girls. I'm sure there are "shorty" girls in A. H. S. Why don't you take them out in your oil burner? I'm sure that would attract them. Girls usually like men with cars.

By all means go back to your old diet, get your ten hours and get down to study. In a little while you will feel O K again. Take heed, Wizzle, and follow my advice.

Sweden is said to control about 80 per cent. of the world's match output.

Airplane capable of carrying 250 passengers are predicted by an engineer.

## ANDOVER GRADE BOYS TO HAVE ATHLETIC CONTESTS

On Friday, June 2nd, the fourth annual athletic contests will be held for grade and Junior high school boys.

The meet will be under the supervision of Mr. Perrone, assisted by high school boys.

The events will be high jump, running broad jump, standing broad jump, pull-ups, baseball throw and ten second run. Boys must compete in all six events to have their points count.

All boys wishing to enter should hand their names, age and weight to their teacher by 4 p. m., Thursday, June 1.

The meet will be held Friday night after school on the playground and Center street.

Last year winners were George Joyce, class 1, Bruce Baker, class 2 and Robert Scott, class 3.

The Interclass Meet will be held the following week.

## LITTLE OLD NEW YORK

Five hundred young men and women, representing 86 nationalities, live in an eight story building in New York. It is the International House on Riverside Drive, the home of foreign students attending New York's many colleges.

A New York department store is considering the introduction of a rock-me-to-sleep oscillator to be attached to beds. This is a machine which produces a gentle rocking effect, which it is said, is conducive to sleep.

It is said that a good many New York women are buying and wearing men's shirts. So long as the women have their own and leave husband's shirts alone, all will be OK.

Henry Collins Brown, an authority on New York history, tells of an old tavern here in which were posted these rules:

"Four pence a night for bed.  
"Six pence with supper.  
"No more than five to sleep in one bed.  
"No boots to be worn in bed.  
"Organ grinders to sleep in wash house.  
"No dogs allowed upstairs.  
"No beer allowed in the kitchen.  
"No razor grinders or tinkers taken in."

St. Paul's church on Broadway, between Fulton and Vesey streets, is the oldest church building now standing in New York. It is the rear of the church which is seen from Broadway, as the church originally faced the Hudson River.

Thirteen years were required to build Brooklyn Bridge in New York. Work was started in 1870.

In central Park is an obelisk which originally stood in front of the Temple of the Sun in Heliopolis near Cairo, where it was erected 1600 years before Christ.

They are cleaning up some of the old-time beer gardens here.

Cherry trees respond more readily to nitrogen fertilizers than do apple or plum trees.

Few minerals exceed topaz in hardness.

WASHINGTON - The industry I was in Washington for a few days recently, and what impressed me most was the utter ignorance of the people of Washington about what is going on in the rest of the world.

Building industry is booming, constructing new Government buildings. Government employees are working every day, yielding mildly about a small reduction in salaries. Streets are crowded with cars, driven with the utmost recklessness and most inefficient traffic regulation. Stores are doing as good business as ever, at prices much higher than in New York. Rents are almost up to the highest level.

Washington has but one industry, the Government of the United States. It is so detached from the rest of the country that it might as well be in some other nation. It is difficult for the men who run the government to realize how bad conditions are elsewhere, when they see evidence all around of great prosperity.

I have long believed that it was a serious mistake to locate the seat of government away from the center of business and industrial activity. If I could do it, I would move the Capitol and the White House to Chicago, which is where they ought to be if they are really to represent the American people effectively.

LAND - safest investment  
In spite of the fact that many owners of real estate have suffered great losses in the past few years, land remains the safest, soundest investment in the long run. The supply is limited, for one thing. Increasing population means increasing demand for land. Every baby born on Manhattan Island increases the value of the Woolworth building.

The time to buy land is now. Dollars are high now; they will be much cheaper shortly. Land is cheap now; it will be much higher before long. The time to buy anything is when everybody else wants to sell. If you own land, hold on to it; if you have dollars, buy land with them for safety.

Don't speculate in land! Pay for it and hold it. Don't speculate in anything on which you can't always realize something at a moment's notice. You can't move land around; you must wait until someone wants that piece at that spot. So buy land intelligently, in the path of the movement of population. Regard it as an investment for your children rather than as a way to make yourself rich overnight.

The world's greatest and most enduring fortunes have been made by buying land and holding on to it.

EDUCATION - learn to work  
My friend Walter Lippman, who also writes a column and, curiously enough, picked the same title for it as this column of mine, wrote something recently which seems to me the best statement of its kind I have ever seen:

"The truly educative process," said Lippman, "consists in learning to deal with reality, that is to say with people and objects and events that are not the mere projection of one's own wishes. Education is a matter of putting away children's things, of discovering that events do not respond to words, of learning

that the world is not in us but that we are in the world."

Most of us live in a world of "wishful thinking." We'd like to be rich, and we dream of what we would do if we were rich, but we aren't willing to take all the trouble and worry on ourselves that anyone must take if he is to attain riches.

Education, as Mr. Lippman points out, ought to teach youth that it must work for what it gets.

Too many young people grow up these days with the idea that the world owes them a living. The world owes nobody anything for which he does not give a commensurate return in labor of one sort or another.

COMPETITION - new order  
For a great many years the United States has been committed to the principle of free competition in business and industry. In the long run, the best way to get ahead. We set up anti-trust laws to prevent combinations and insure competition.

Everyone who has given the matter even a little thought realizes that the anti-trust laws have not worked as they were expected to. Competition has proved ruinous in many industries; in the soft coal industry, for example, where the owner of a coal mine had to work it himself if he was to get anything out of it at all, instead of combining with other mine-owners to produce only as much as the market would absorb and all share the profit.

All the signs point to the discarding of all regulations prohibiting trade combinations and the establishment under Government supervision of groups and associations of manufacturers and producers to fix prices and determine all other trade conditions.

That is, of course, going to make it harder for the ordinary man to get himself established in a competitive business or industry. It will result in the best man becoming employees instead of independent business men and the less than best dropping out of sight in the mass of humanity.

That may be better for the social order, if we conceive that to be a system under which all humanity will eventually occupy the same plane of activity and income, but I greatly fear that when we take any steps to stifle the initiative of the individual and to limit his opportunities we will be abandoning the fundamental principle that has made America what it is.

## Ways To Use Honey

Do you know how to make use of this beautiful and inexpensive New York honey? Here is a suggestion:

BRAN BROWN BREAD  
1 cup white or whole wheat flour  
1/2 cup honey  
1 teaspoon soda  
1/2 teaspoon salt  
1 cup bran  
1 cup sour milk  
Mix ingredients, pour

Sift together the flour, soda, and salt and mix the other ingredients. Steam three hours or bake 40 minutes in a slow oven. If the amount of milk is increased by 1/2 cup, the bread is more delicate and has a creamier texture. What higher food value?

These breads have been prepared by the New York State Department of Agriculture and are available from the State and Federal Bureaus.

Faller's earth gained its name because of its original use in darning woolen cloth.

## Every Way We Turn
