JHOULD LO FOR JOOD FEALTH By AMELIA H. GRANT, M.A., R.N. Director, Bureau of Nursing

New York City Department of Health

PERSONAL HYGIENE ESSENTIAL

L'VERY modern girl and young woman recognizes the importance of bodily cleanliness, for the body must be kept

clean if we are to be healthy. A daily bath tones up the system, opens the pores and permits the body to cast off poisons. A daily dip or shower re-

moves the perspiration and eliminates body odors. The girl entering her teens should be told by her mother or her doctor of the transformations that occur within her body as she begins this important era in her life. To keep her in ignorance of these changes not only is false modesty, but is

highly dangerous both to mental and physical well-being. Daily evacuation of the bowels is essential to health. Proper I food, especially the eating of leafy vegetables and fruits, and the drinking of fruit juices and milk, will bring this about naturally and without recourse to harmful cathartics. Your doctor will advise you on this point.
