## BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

First Student—"I've just been reading some statistics here—every time I breathe somebody dies."  
Buddy—"Gosh man! Why don't you use Listerine?"

### Extra Dollars

How to spend them and get little or nothing in return. One no good way is to buy cheap paint, that is, paint offered at a low gallon cost.

You can't fool those devils—dampness and decay. Cheap Paint is their meat; they crawl right thru and under the surface, the little bugs that comprise their army of cohorts work even faster than on a surface not painted at all.

Now good paint, made from pigment that has proven its value by years of service, mixed with pure Linseed, or to be correct, Flax Seed Oil is a different story. This Paint when brushed on a surface is entirely weather, sun and moisture proof, arrests decay and adds beauty wherever applied.

Such a Paint is the Benj. Moore P. H. P. Start using it this season, keep track over a term of years and you will find that you are buying the highest quality of Paint protection at the lowest possible cost.

Prices are all much lower this season; labor is cheaper—it is a good time to paint! Baker Bros. will be pleased to make estimates or assist you in any way you desire.

Remember, it isn't the cost per gallon but the cost of the whole job and the quality of its protection that counts!

### A Prophet?

No! Just a name for a strictly high grade Lawn Mower that we sold early in the season for \$8.75. We just picked up a few at a price that allows us to offer them at \$6.45.

It requires no gift of prophecy to determine that those who take advantage of this offer are receiving very unusual Lawn Mower Value.

### Lemon Juice

The natural health beverage for hot weather. Save every drop with a metal rustless easy-cleaning Extractor or glass if you prefer. They are 10c items.

### Pig Skin

The new material for Cement-On Shoe Soles, just the stuff for those heavy summer Work Shoes and only 19 cents a pair complete.

### Hydro Flue

An attachment for gas ranges and boiler heaters that does away entirely with stove pipe.

Place your range anywhere you wish, put on the Hydro Flue and you have a safe, clean, perfect smoke or burned gas consumer; an article made from aluminum and porcelain, can be fitted quickly to any gas range. Costs but \$1.50, is fully guaranteed and will last a lifetime.

Hydro Flue marks the passing of the unsightly and unsatisfactory stove pipe heretofore so necessary to the use of gas as a cooking fuel.

### Sprinkling

May be necessary to protect lawns and gardens, and a good hose is important.

We are offering 50 feet of five-eighths rubber hose, complete with couplings and gaskets for \$2.29.

Spray Nozzle free to those who buy before June 27th.

### Save With So-Lo

The rubber paste that mends shoes, rubbers, auto tires, awnings and everything made from rubber, leather or cloth. So-Lo spreads like butter, self-vulcanizes in a few hours, sheds water like rubber and wears like leather.

Comes in tubes at 25 and 60 cents—keeps until exposed.

### No Odor

There are plenty of preparations available for opening clogged drain pipes, but many of them one way and another just add to the trouble by leaving a residue that will cake and have to be chiseled out or an offensive smell that nearly strangles the person doing the job.

What you really need for a quick clean job is Trapene, a new Hip Co. Product. It goes farther and is more satisfactory in results than any similar article that we have offered.

A convenient slip top can sells for a quarter. We have tested it and offer it with full assurance.

### Be Safe

Protect your shrubs and flower beds with woven wire border; costs but little and prevents many disappointments.

If you want to live in the future, try the installment plan.
