OUR KEYNOTE: "If There Is Not A Way, Cut A Way"

## The Glorious Fourth

meaning to the citizenry of the nation as does nearly every other holiday that is celebrated nation-

picnics and outings, a day of rest and a day for the [.

The other and real meaning of the day is someto us by our valiant forefathers, who had the courage for mosquitoes. and perseverance of purpose to conceive and fight for the independence of their country.

able occasion of the Declaration of Independence, this garbage should be placed in covered receptacles and United States department of agri-As the decades have rolled by since that memornation, then struggling for its very existence, grown into the greatest power on earth. The foundation laid down by those great men who gave us our place. The water should be swiftly moving and should suing years without basic change, guiding us and offering incentive to every national action of note.

This Fourth of July is the most apportune time of all to give real consideration to the ideals upon which our country was founded-a time to study the principles of true Americanism and rekindle the spirit found among women, physicians says. All of which We shall march on to new triumphs if we keep the faith with those ideals.

and finds that all she can do is mend his clothes.

# Vacationitis

TIACATIONITIS is a recurring malady, reported be epidemic in this vicinity. Symptoms are restlessness and a "far away" look essarily result. in the eyes. Other symptoms are yawning from lying

go and spend the least money. "patient' begins to study road maps. This is regarded the president of a railroad. as an unfailing sign that the afflicted one is in the last stages and is on the verge of "succumbing."

imagination centers and causes them to expand to such adopted him out of the home and gave him a chance? use them to propagate new plants." a degree that a dollar bill looks like a ten when the What about the chief clerks in the railroad office who "patient" leaves home. It all but paralyzes the mus-took him in as office boy and gave a chance? What M. J. R. asks: "I would like to cles of the body and all control over them is lost.

treats are to the effect that the malady is spreading of directors of the company that elected him to the spearmint and it has a lemon-like Once the "patient" is thoroughly under the influ-

ence of the ailment, it is impossible to predict, with any degree of accuracy, what turn the disease will take. It is a definate fact this season that lack of funds will him—just because he was not born with a gold spoon but I think it is Melissa officinalis, tend to curb the disease to a greater extent than ever in his mouth—does not mean that he is self-made.

period of years by students of the disease reveals that ' few, if any, ever recover from it completely. Once one is infected, he is almost certain to have it annually about this season. The most serious after effect is the flattening of

the bank roll. The "patient" recovers from all save you are supported. You should be worthy. this. It is lasting and hangs on forever.

The chief purpose of the conference in London seems to be another attempt to chisel this country f war debts rather than to discuss economic ills.

## Two Billion Dollars for Music —yes; but self-made, independent of it, no!

MERICANS spend annually in excess of ten billion A dollars on recreation, and more than a quarter of remedial plans that have been advocated in the past this huge sum is spent with enterprises which are de-three years. pendent on the use of music. Such is the report set forth in a recent issue of Words and Music. official publication of the American Society of Composers, Authors and Publishers.

Over six billions of the amount expended for recspent in commercial enterprises based on the use of shafts of light in the heavens that spells terror.
