BAKERS' STORE NEWS

Let Him Down Easy

Josh: "Did you make the debating team?"

Jim: "N-n-no; they s-s-said I w-w-wasn't t-t-tall enough."

Spraying

Requires not only proper chemicals and poisons but some device for putting this material on the plants in a way that will do the most good.

Power Sprayers are fine if your acreage will stand the expense but the majority of small growers will have to depend on compressed air sprayers of the type that is carried with a strap over the shoulder, and taken to themselves the name of Knapsack Sprayers.

In past years we bought Sprayers at random, trying to stock what seemed to be the best value, but our experience has convinced us that the cheapest and best sprayer service we can give you does not depend so much what you pay for the Sprayer itself as your ability to get repairs when needed.

These Sprayers have many small parts; they will require frequent replacements. It is just too bad when the bugs are stripping a fine piece of potatoes to have a \$5.00 machine fall for want of a ten-cent repair and find your dealer unable to supply that part.

We have found the only way is to buy one of good manufacture, stick to the models best adapted to your needs and carry a full line of supply parts.

On this basis we ask you to buy your Sprayers at our store and we promise to furnish you the best possible repair service until they are worn out.

Four gallon sprayers from \$3.60 up.

Noisy Gears

Usually means poor lubrication, just fill them with Totem, a combination of grease and oils blended to a semi-paste consistency, but that will follow into the cog gears and take out all the growl and clatter.

We carry Totem in hard grease for cups and slow moving machinery—it pays to use plenty. Your machinery if well lubricated will last longer and give you such a quality of service that the grease costs you nothing.

Totem is lower priced than most quality grease.

Insect Spray

Do the insects eat your rose bushes, shrubs, evergreen trees, fruit trees or flowers? Verdol will kill them.

Verdol is a new preparation made by the Standard Oil Co. It has been tested out in actual use and does just what is claimed for it. Kills destructive insects on all garden and flowering plants.

A 35 cent can will make five gallons of spray.

Try a can and get rid of those pests that are causing all that worry and bother.

Fly Spray

Each make has its friends. We try to please by carrying a variety so offer you Fly Flop, Tangle Foot, Gray Lawn, Knox-Out.

They are all good, they have a wide distribution; they cater to individual preference and each salesman who solicits their sale can tell you plenty of reasons why each brand is the best. So take your choice. Priced at \$1.00 per gallon except Tangle Foot, which is \$1.50.

They Cut

Try them yourself—six Knives and six four-tined Forks, with beautiful ivory handles, only \$1.75. No polishing, no scouring. They shine and they cut, are good enough for royalty and always ready for service without embarrassment. They look clean. They are clean.

Mixing Faucets

A great convenience for drawing hot or cold water at the kitchen sink; the spout swings, the soap dish is convenient and out of the way and the whole outfit is very attractive.

It isn't long ago that we were obliged to get \$5.00 or more for one of these fixtures, now we can sell you one of the best for \$4.50. And a real good one as low as \$3.75.

Too True These Days

Supt. Roarick: "Say, Walt, if you had five bucks in your pocket, what would you think?"

Auer: "I'd think I had somebody else's pants on."

Frisk yourself and see if you have any of this \$700,000,000 more dollars in circulation than in boom times.
