HELPING THE REFRIGERATOR WORK

No refrigerator can keep food in good condition unless it is kept well-illed with ice. When the ice in the ice compartment fills it less than ice compartment fills it less than half, the temperature in the rest of the refrigerator rises above the safety point. This is true even in the best insulated ice-boxes. When the ice compartment is less than

All fruits for persons who must limit sugget in their diet may be can faid with foiling water instead of with sugar sysup. Fruits canned in this way may be used just as the fresh fruit is used.

VACATION CRUISES MAKE THE WORLD'S FAIR A PLEASURE TRIP

Visitors returning from "A Century of Progress'', Chicago's great World's Fair, now in the full height of its glory and activity, are enthu iastic about the marvelous exhibi

lastic about the marvelous exhibits from all over the world, but those who have enjoyed it the most, according to their own enthusiastic statements, are the five hundred who participated in the first World's Fair Vacation Cruise on the great SEEANBEE Lake Liner.

To do justice to the innumerable magnificent exhibitions, attractions and diversions of the World's Fair is a severe tax of physical energy of even the most robust, but those who made the trip on the great luxurious steamer were rested in body and finind and fully prepared to make the most of the opportunities of the mind and fully prepared to make the most of the opportunities of the Fair. The pleasant, companionable, social life on shipboard with the daily entertainments by profession-yal performers, deck sports, games, contests, dancing to an excellent orchestra in the beautiful new ball room which was completed at a cost of many thousand dollars especially for these cruises, made the Chicago-bound and the return voyage the most pleasurable vacation imaginable.

During the two full days and nights at Chicago the great ship SEEANBEE served as a luxurious of the day of the served as a luxurious of the

ness or worry regarding accommodations. Since the single low far included all expenses, transportation

safety point. This is true even in the best insulated ice-boxes. When the ice compartment is less than the ice compartment is less than shalf full, odors may also be noticed, because the surface of the ice is not large enough to absorb them. Both the cooling effect and the odor absorbing effect of the ice depend upon exposure of a large surface to the air currents.

The coldest place in the refrigerator is just below the ice compartor in the side food compartment, so the least cold place is at the top just and currents.

The melting and evaporation of the lee are what chill the diff. Therefore any attempts to economize on its by wrapping it in paper defeats the purpose for which the ice is put in the refrigerator.

voids.

Rebekah Lodge Organized

Movement has been on foot for some time for the organization of a Rebekah lodge in Andover. Last Monday their contemplated purpose was carried out, when a degree team from Wellsville, with Mrs. Mary Mott of Friendship, District Deputy came to Andover, bringing with them a charter to be presented to the new lodge in Andover.

At the regular meeting held that evening in I. O. O. F. Hall, 20 candidates were initiated by the Wellsville degree team and the following officers elected for the first six months:
