Notice

Because of recent damage to the Presbyterian church and grounds, as a result of children playing games on the lawn, the trustees have placed "No Trespassing" signs on the property as a means of further protection.

All parents are requested to co-operate in this matter, so that further action will not be necessary.

BOARD OF TRUSTEES,

Dates Claimed

Dec. 7.—Baptist Fair.

"A normal active adolescent boy should eat more than his father," says a Cornell University food expert.

Classified Ads are the cheapest way—buy or sell for only 25c.

The Hint?

A minister, during an address, said: "In every blade of grass there is a sermon."

The following day one of his congregation found him mowing the lawn.

"Well, sir," he said, "I'm glad to see you engaged in cutting your sermons short."

Hornell Loses

Charles Kilburg has been given the decision of the Supreme Court handed down by Justice Douglas Vanduser, in a suit brought against the City of Hornell.

The city will now have to return the land and pay all damages and costs. The land in question covers 28 acres directly north of the watershed of the city's new reservoir at Fremont.

BAKERS' STORE NEWS

He: "I told your father frankly that I couldn't support you."
She: "What did he say?"
He: "He said he had had the same experience."

Monday Morning

September 11th, killing frost in the Nipissing Country, marks the beginning of the end of the hay fever season but only the beginning of that long stretch when most of us will be figuring the cheapest and most effectual method of fighting off the shivers.

In this climate if we would attain any degree of comfort we must spend the major portion of each year fussing with fires, there is no escape—fuel, fire, ashes a continual round of just burning something, somehow, to make heat.

Therefore, home heating being one of our major problems should have our most intelligent and careful study. We have many years of experience and have devoted much research to this question. Our stock of heating appliances are the product of this investigation; we believe our advice might help you to get more heat and a better distribution at lower fuel cost.

Whether it is an odd corner between seasons, cool nights or against constant low temperature that you wish to direct your efforts, whether your fuel is electricity, gas, coal or wood—any or all of them we have correct appliances and a knowledge of the most approved practice of installation. Consultation free. We are pleased to be of service.

Longer Evenings

Call for more flashlight service. We specialize in new lights or refills for old ones.

Have yet to find batteries that will produce the gleam equal to Hip-Co, and last as long, when light begins to dim, its time to renew—don't leave dead cells in the case, they swell and may ruin your light. Hip-Co Cells are 10c each and if your case is properly insulated will give months of perfect service. Fill up next time with Hip-Co's.

Pipes and Pouches

We sell many because our assortment and prices please.

A rubber lined Pouch keeps your tobacco just right for a cool, sweet smoke.

Quality Milk

The reputation of delivering only milk that is clean and wholesome is valuable to every dairyman.

This reputation is gained and held only by constant attention to details. Every utensil that comes in contact with milk should be constantly treated with a concentrate soda solution and in addition strainers should have filtering discs.

We furnish speedy discs at very low cost, also Soda Solutions ready prepared or in dry powder form for your own mixing. The expense of using this concentrate is very little as only a small quantity need be used to kill all germs and keep staples sweet and healthful.

Ventilation

Fine when under control; windows may be opened and closed at will, but what does this avail if the glass is broken and gone?

We furnish Libbey Owens flat-drawn Window Glass; its resistance is twice that of most glass made by old methods. It's clear, free from waves and hard spots, still at no extra cost.

We carry a large range of sizes cut to fit your openings and set glass in doors, windows, pictures or cabinets at most reasonable prices.

Furnace Repairs

Look to your furnace pipes and elbows; you may find them eaten out from the combination of soot and moisture or burned out from long use.

We stock furnace pipe, elbows and dampers in all regular sizes. They are low in price, don't risk a fire by using faulty pipes.

Asbestos cover adds service and reduces loss of heat and fire hazard, paste it in place same as wall paper; buy it by the yard, we cut any length.

Polish Mops

Big and fluffy, treated to pick up dust; long handles with sockets that fold down for reaching under furniture. A large room slicked in no time. Special value, 79c.

For Very Small Volume

Sally: "What did you do with your bathing suit during the winter?"

Polly: "Used it for a book mark."
