## Armistice Day

A peace. The measure of the country's gratitude for must shoulder the burden. But there is the rub-you peaceful ways.

Peace is accepted as a natural state. The threat but you can't compel the public to buy. of war does not press on the people all the time, as in

well to remember that it is a bought peace. All advan-lof 50 per cent. bought with the sacrifice of blood and the lesser sacri- pork products on the part of the general public to off- until you have a complete system of fices of money expenditure and parsonal discomforture test the steam advance in Time 1 to the running hot and cold water in the Prayers and thanksgiving will mark the observ-be voluntary but imperative. ance of Armistice Day but the major display of activity flict. Those who went to war remember that the gen-land demand is being violated. Supply cannot exceed eral opinion up to that time was that: there would demand without depressed conditions. never be another great war. They can't forget the

great haste to strengthen and mobilize our national

Many argue against the reviving of war memories as a means of banishing thoughts of war and thus promoting an atmosphere of peace. To most of those who bobbed head. participated in the fighting, the war was the most dramatic experience of their lives. The tragedies, c course, made an indelible impression on every life affected. But time draws a curtain over the hardships, THE government is trodding on unfamiliar ground and leaves only the stories of great heroism and suc-

Armistice Day invites some consideration of the agencies of peaceful negotiation among nations than at would entail many different angles of consideration in form of an ellipse to provide adeany other time during history. In direct contrast, the its merits and demerits. It does seem, however, that quate drainage. As soon as chief powers of Europe are now better armed, and the ill effects it would have might far overshadow any trimming has been completed, more liberal with war preparations and appropriations good effects. of money than in 1914. The struggle between these
