And the Fellow Driving It
The car to watch is the car behind the car in front of you.
We Are Telling You
Now is the time to get your order in for timothy and clover seed. There is a real shortage of high grade timothy, the price has steadily advanced since last October and promises to go much higher as we approach the seeding season.
We contracted our seed as soon as the price was fixed last fall, so we are able to offer you seed of the very highest quality at real money-saving prices. We have been looking around and we know that we can book your order now and save you from 35 to 50 cents a bushel.
If you read your farm papers you will have been informed that many mid-west seed dealers have been violating the pure seed laws; have been prosecuted and paid heavy penalties. The Berry Seed Co. and their various affiliates appear the outstanding offenders but there are many others. There is always plenty of low-grade and worthless seed with a crowd of unscrupulous dealers ready to exploit it. Some states have very lax seed laws so these fellows locate there and broadcast their wonderful offerings. They get caught occasionally but their large profits allow them to pay and keep up the swindle.
In our own state you have better protection, but seed far below our standard of quality may be sold without legal offense.
The seed we offer you is hand picked, that is, every plant that might add impurity or inert matter to the crop is pulled out before harvest, then we are very particular about color, plumpness, germination and vitality, so that when you buy our best seed you are getting the cream of the market and super-quality in in every respect.
Come in at once and put your name on the list. You do not have to specify exact amounts or pay any money. Trade with us and you will be fully protected against both advance and declines. We guarantee the price and will not accept orders beyond our ability to deliver—you will get your seed when you want it.
Nut House Official: "Did you get those five men that escaped?"
Subordinate: "Five? We got thirteen!"

Brooms
Every home can use a good one to advantage; to buy the ordinary cheap grocery store broom is very questionable economy, they give you service of a very low order and soon loose their shape so that the sweepings are left in ridges and the surface you wish to clean must be gone over several times.
It has become a proverb that—"A New Broom Sweeps Clean"—if the broom is a Morning Glory it sweeps clean new or old. Made from the toughest and finest broom corn by master workmen, they wear down evenly and retain their elasticity, keep their shape, and do a good job to the last push.
Morning Glory brooms are sold on a money back guarantee, if the dollar you pay for one of them does not in your judgement give you one hundred cents worth of the cleanest, easiest and most satisfactory broom serve you have ever experienced, bring back the handle and get back your money.
Pipe Smokers
Your favorite blend of tobacco will reveal itself with an even greater gratification if you will switch to a Filtrex Pipe. Your smoking mixture be it ever so perfect, is only half the contest for a good clean cool smoke. A bad pipe will ruin the best tobacco; a good pipe multiplies its excellence.
The Filtrex is fitted with an absorbent cartridge, you throw it away when it becomes saturated and put in a fresh one.
This style of pipe has only been available at a high price, the Filtrex with four extra filters sells for a quarter. Get yours today.
Snow Scooters
Lots of fun coasting on loose snow or crust too soft to carry a loaded sled.
Slide down hill or any incline with these Scooters. Low priced—strong—durable.
Rat Season
The season of great activity among your rat population is just getting under way. Squelch them quickly with Saft Van Rat Rid, it is flavored and perfumed to suit their taste.
Economy is a way to spend money without getting any fun out of it.

Returns Purse Found in Hornell Street

That there are some honest people in this world was demonstrated Saturday when Mrs. John Fisher lost her shopping bag in a street in Hornell. Mrs. Fisher had been in the city having teeth extracted and on coming from the dental office, in getting in their car, dropped the bag. Mr. Fisher drove rapidly away without discovering their loss. They had been home only a short time when a telephone call from a lady living in Almond informed them she had the bag in her possession. She was near enough to the Fisher car to see the bag as it fell to the pavement but was unable to call them. Looking inside the purse she found a card with Mrs. Fisher's name and address, thus proving two points—not only that there are people of moral integrity but also that it is a wise plan to carry your address in a purse or traveling bag.
