## URGES YOUNG MEN TO WATCH TRENDS

Keep Up-To-Date on Agricultural Opportunities, A. W. Gibson Advises.

It pays to keep up-to-date on agricultural opportunities, says A. W. Gibson, associate secretary in charge of agriculture. He urges young men who are studying agriculture to watch for opportunities and to prepare to take advantage of them in the future.

"Much is published in newspapers, magazines, and bulletins," he says, "that points the way to future developments in farming and related business occupations. I advise young men to learn to recognize and use this information."

As an example, Mr. Gibson cites Cornell bulletin 277 entitled "The New York State 1934 Agricultural Outlook." This bulletin, Mr. Gibson states, gives as much information on future opportunities as any publication he has seen.

In regard to dairy farming, the bulletin says, "The long-time favorable outlook for dairying in New York has not been changed." For orchardists, it indicates a relatively favorable long time outlook for the apple grower who has high-yielding orchards of dessert varieties.

Hints such as these, Mr. Gibson declares, can be used to good advantage by many young men today. He says he sees great opportunity to use agricultural knowledge in the dairy in the feed and fertilizer business, in farm credit and banking, in agricultural journalism and advertising, in the nursery business, and many more lines of work that have a part in the agricultural industry.

Uncle Ab says that true friendships will persist in spite of time and distance.

The latest architecture for bee hives is a skyscraper design, four stories high.

Twenty-five 4-H holstein calf club members from eleven New York counties were honored for their achievements in calf club work during 1933.

In the United States, each person eats less than 18 pounds of butter every year. In Canada the average is 27 pounds.

Cost accounts show that apples have been one of the best paying enterprises on New York farms where climate and soil are favorable. From 1920 to 1932 apples paid 65 cents an hour for time spent on them after all other costs were paid.

## HOW ONE MAN LOST 22 POUNDS

Mr. Herman Runkis of Detroit writes: "A few lines of thanks from a rheumatism sufferer—My first bottle of Kruschen Salts took all of the aches and swellings out of my joints—with my first bottle I went on a diet and lost 22 pounds and now feel like a new man."

To lose fat safely and quickly take one-half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning—an 85c bottle lasts four weeks—Get it at any drug store in America.

If not joyfully satisfied after the first bottle—money back.

### IF YOU GET UP NIGHTS

Lax the Bladder With Juniper Oil, Buchu, Etc.

Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, the bladder laxative, also containing Buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights," go back and get your money. If you are bothered with backache or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep.

It is estimated that garget or mastitis causes New York dairymen a yearly loss of 16 million dollars.
