BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

"Your name," said the officer at the station.
 "Sam Jones," replied the army trombonist.
 "Your rank," said the officer.
 "I know it," sighed Sam.

The Other Fellow
 We are all more or less deluded by the idea that our actions, opinions and conclusions are the result of a logical analysis, while, as a matter of fact, they are largely following out a course of action developed by environment; in their cupidity for initiative, mankind is still akin to many animals of the lower order.
 We follow parades, we watch our neighbors and copy even their idiosyncrasies, we join fraternal orders and dress ourselves with strange and barbarous costumes. We are saturated with superstition and weighted with paganism; but in defiance to all this, we are as intelligent and kind and considerate a people as the experience and the civilization of all the ages has been able to effect.
 Relying on this trait of human conduct, we wish to direct your attention to a phase of the initiative that many people have found profitable, economical and altogether satisfactory. We break the news—Use Moore's Paint!
 Their line now comprises one hundred and sixteen products, all relating to the painting needs of this nation; so you may be sure that among Moore's creations you may fulfill every painting desire.
 Andover has a very large membership in "The Triangle Club." We have a larger representation in this club than many localities having ten times our population. Won't you let us send in your name? The only obligation is your expression of desire, and you will at once begin receiving Moore's News and much other literature pertaining to the art of correct interior and exterior home decoration also be free to consult Betty Moore on any special problem.
 Phone or call and we will enroll you at once.

Ant Buttons
 The clean, easy, simple way to destroy these active little pests. They kill directly and by infection—the ants disappear by magic—swarms today, gone tomorrow.
 A season's supply for a quarter.

The Vanguard
 O' Cedar Products have long been leaders in the line of polishes and the tools for their application.
 They are one of the very few concerns left who were singing the praises of their creations a decade ago, and they have endured, and grown large in the business until O' Cedar is a household word all over this country and in foreign lands solely because their polishes have fulfilled every need and met every expectation of its users.
 O' Cedar is still the leader among all polishes, strictly up to date and all the time bringing out new products at their need develops.
 Let us introduce you to their new and complete line. You have no polish problem that O' Cedar cannot solve, a knowledge of what they can do for you put into action will save you much labor and produce the shine that endures.

On the Way
 The dry weather and cool nights are holding back flies and small winged insects, but they will soon be along in usual swarm.
 Fix up screens and be ready for a really permanent job. Bronze Cloth is correct and now moderately priced. Opal Cloth full gauge heavily zinc coated will also give years of service.
 It is poor economy to buy cheap screen wire; the best costs but little more. We carry all widths so cut your size without loss.

Lin-X
 A perfect finish for Linoleum—being clear, it does not obscure or cloud the pattern, but renews, protects and adds to its lustre.
 Dries free of dust in three hours, ready for travel in seven hours, is not affected by water, hot or cold; alcohol, grease, soap or alkali and is very durable.
 A pint can costing you 75c is enough for the average kitchen or hall and bath room; a quart can for a large living room.
 Lin-X is not slippery and takes the rub out of scrubbing.
 "What was that explosion on Si's farm?"
 "He fed a chick some Lay or Bust feed, and it turned out to be a rooster."
