#### WHAT IS BECOMING OF THIS GENERATION?

The other day (American history class last Current Topic Day) an outstanding pupil in the class gave a very interesting description of an old negro professor—instructor in Alabama whose ideas and ideals were all for the good of our country.

The boy described colorfully and vividly how the old negro, dressed in his homemade and patched clothes exploring in the morning until his classes began, for new and different kinds of earth and wood, in hopes of adding valuable material to the already filled volumes of science.

And, the strangest part of all, this old man has an unique interest in the production of peanuts, and has invented over a thousand uses of the shell, root and stalk of the peanut. When tariff issues were raised in Congress, and protective tariff had to be "cut," the Congressman thought that peanuts were mere nothings in the life of so great a nation, and decided to not only lower the protective tariff, but to abolish it, on the plea, "defensive, less peanut."

Our negro friend (who, you must remember, invented so many useful materials from the peanut), took the stand and in his own community caused people to think that perhaps it was rather a loss, having the protective tariff removed. He was asked by the anti-removal of protective tariff faction if he would take the stand in Congress to show them that it was wrong.

In the clothes, patched by himself, the old negro presented his arguments in plain facts to Congress—not indifferent impassionate pleas, but with a heartfelt desire to right a great wrong (in his mind). Congress reconsidered and realized how useful was this protective tariff, and decided not to remove it.

When the pupil finished this very interesting account he paused—and then said: "I have a question which I do want you to think about—Why is it that there are not such men as Dr. Carter in the Congressional halls of our government?"

We do not doubt this student's patriotism, but we wonder if the spirit of democracy is becoming stronger in every student's mind, or is it just a crazy idea?

#### REWARD

Are we payed for going to school? Can our time in school ever be spent to a better advantage?

It is certain that if we fail in our school work, we have been unsuccessful in that particular task. In such traits as pluck, interest and conscientiousness lay the foundation for accomplishment. A now and then failure may prove that point in a most disagreeable way.

Reward is the natural consequence of a successful school year. See that you get your share at Regents time. Try, and we hope you succeed.

#### —A-H-S—

#### ANDOVER HIGH SCHOOL STRIKE A SUCCESS

The rising temperature of the last few days brought forth the demand of the students for open windows. A petition was sent around and nearly everyone signed it. As this brought no effect they decided to go on a strike. "Open Windows or No School." At exactly 1:30 the students rose in a body and marched out of the school building. There were only about 25 students plus the teachers left in the building.

A large share of the students entered the afternoon in the swimming pool.

Tuesday morning found the fans shut off and the windows open, much to the delight of both students and teachers. We are now able to study in peace.

We all know that this isn't just the thing to do just before Regents, but there are some things we can't stand. However, we are now satisfied.

## CURRENT ISSUES IN THE A. H. S.

### HIGH SCHOOL STRIKES AGAINST CLOSED WINDOWS

Andover High School students asked that the windows in the school be left open. The thermometer registered 95 and 96 degrees in the study hall and the air, to quote one student, "was stifling." Mr. Beebe insisted that with windows open the ventilator would not work. But the heat-stricken pupils insisted that it didn't work anyway. So at 1:30 Monday afternoon the school halls and rooms were almost vacant. The windows are now open and the students have peacefully resumed their studies.

### Marion Nobles Temporary Editor-in-Chief This Week

Marion Nobles who is trying out for Editor-in-Chief, for next semester, is acting as temporary editor this week. Others who are eligible for editorship next year are Edwin Alderson and Don Brundage. Election for the *Hi Herald* staff will be held in the near future.

Bernice Jackson of the Fourth Grade has moved away from town.

#### —A-H-S—

### AROUND THE A. H. S. SPORT WORLD with Don Brundage

A. H. S. ran up a high score against Alfred in the dual meet held there Tuesday night. Andover scored 66 2/3 points to Alfred's 33 1/3 points.

100 yard dash—McAndrew, first; Brundage second and Smith of Alfred third.

220 yard dash—McAndrew first; Brown second and Brundage third.

440 yard dash—Smith, Alfred, first; McAndrew, 2nd, Brown 3rd.

One-half mile—Smith, Alfred 1st; Sheldon, Alfred, 2nd; Sweet, Andover, 3rd.

1/4 mile—Smith, Alfred. High Jump. Cannon, 1st; a tie for second between B. Brundage of Andover and Norwood of Alfred.

Broad Jump—Cannon, 1st; 18 ft., 9 inches; Baker, 2nd; Edwards, 3rd. Shot Put—Edwards, 1st; 31 feet 5 inches; Baker, 2nd; Cannon 3rd.

Discus—Baker 1st; 94 feet 10 inches; Cannon, 2nd; Brown 3rd.

Javelin—Cannon 1st; 140 ft. 4 in; Sheldon, Alfred, 2nd; Baker, 3rd.

Pole Vault—Tie for first, Cannon of Andover and Turk of Alfred; 9 ft., 6 in.; Brundage, Alfred, 2nd; tie for third, Edwards, A. H. S., Sheldon, Alfred.

Jim Cannon took second place at the Sectional Meet at Rochester. Folker of Madison won first place, by going five feet ten inches, while Jim made the highest jump so far, of his career, going five feet nine inches to win second place.

The following points were won by A. H. S. men at the Alfred meet: Jim Cannon, 23 points; Max Baker, 14; Joe McAndrew, 13; Fay Brown, 6; Don Brundage, 5; E. Yannie, 4; Milton Sweet, 3; Basil Brundage (tie for 2nd, high jump) 1 1/3 points.

A. H. S. baseball team now stands in third place in the league. Their next game will be with Canaseraga there, Thursday afternoon.

Belmont beat Andover in a game featured with errors. Belmont scored ten runs on errors. Generally the team was in poor condition, as a result of excessive swimming and dancing. Lester Green, Andover's fast shortstop has quit school thus lessening A. H. S. chances considerably in next week's game.

### The ETIQUETTE Column

#### HELPLESSNESS AT SCHOOL

You are anxious of course to see your school one of the best in the country. How can you make it so? You can help by being punctual in attendance. This is an easy matter. Cultivate the habit of being on time, whether you are going to school or to a movie.

You can help by being orderly. Pass into, out of, and around the room in a quiet, orderly manner, lifting the feet, walking erect and without jostling. You are responsible for the appearance of your desk, the floor, and the aisles on either side of it. Put all bits of paper and pencil shavings into a waste paper basket kept for that purpose.

Have a place for everything and see that everything is kept in its place. Use the walk in coming to and from school—not on the lawn. See that the school yard has an orderly appearance so that you may take pride in it.

Quiet, orderliness, regularity of attendance and punctuality as well as obedience are necessary to the making of a good school.

#### —A-H-S—

### GIRLS' SOFTBALL PRACTICE ENDS BECAUSE OF REGENTS

As Regents are only two weeks off the girls decided to abandon softball for the year and concentrate on their studies. So there is no more softball practice.

## THE SPY??

Well, folks, I saw quite a few shocking things this week, but what shocked me most was to see one of our very dignified Seniors, Ruth Walton, riding in the electrician's Ford.

Oh, yes, the three "nut" sisters, Church, Sly and O'Donnell, who have been seen several times sitting on the town bridge eating cinnamon rolls, spent Sunday evening at Silver Lake. How about it, girls, did you paddle your own canoes or did you let your Hornell escorts do it?

I got the surprise of my life when I saw one of our sophisticated Seniors strolling around with one of our Eighth Graders. Did some one advise you to go West, Dick?

It sure was funny the other night to see three or four dogs answer "Jack's" whistle instead of Catherine. Oh, won't you ever learn?

Do we feel big having all the star reporters phoning up to get a story of the "big" Andover High strike? I noticed their sign said "No Air, No School." So we got air.

I was there too, striking with the rest of you, but I wouldn't want anyone to know it as they might think your Spy wasn't "Nice."

It certainly was funny the other night to see three or four dogs answering "Jack's" whistle instead of Catherine. Won't you ever learn, children?

We felt a thrill when all the star reporters from neighboring towns and far-off cities called up for the story of the "Big Andover High School Strike." You poor, poor gasping, heat-stricken children, the "sizzling heat" got you. Now the windows are open. Feel any better?

The Frosh Weiner Roast turned out as I expected it would. And what can one expect from Frosh? (But I'll admit it was better than that stale old Hi-Herald thing they called a Weiner Roast.)

This Kruger-Cook match has gone long enough. We thought when you started this romance, Wizzy, that you were only fooling. It looked serious enough at the Frosh roast, when Beatrice thought he might not come, her sweet face paled and her eyes became narrow slits. Jealousy, the green-eyed monster, was at her heels.

What's all this I hear about having school from 9 to 1? Seems like a swell idea for hot weather. Peggie thinks it is. She got a petition around now. We got the windows open, so why can't we have school from 8 to 1?

Did you know Orpha Greene has a fellow? I've been spying, Orphy, be careful. He has a nice black rouble, but I can't find out his name.

## THE SPY

### —A-H-S—

### MUSICAL REMINDERS

#### Grade Operetta

Don't forget the grade operetta Thursday evening at 8:15 sharp. The grades are looking forward eagerly to entertaining you. Come and see it for yourself. This operetta is free of charge.

#### —A-H-S—

### AUNT MINNIE MOOCHER

Dear Aunt Minnie: It is my lot to be in love with some of the Freshman girls. Do you really think they love me? They always call me "Hoimy Dear." If you really think they love me, do you think I should ask them for a date? But, I am too bashful to ask them and I even blush whenever I come in contact with them.

"—Distressed HOIM"

Dear "Distressed Hoim": Now if that isn't you, a Senior in Andover High School, a great athlete, listening to those Freshman girls. When you get to be a P.G., perhaps they will fall for you, as those two Freshman girls do fall for P.G.'s. By all means, I advise you not to ask them for a date, yet, as you should give them time to realize your value. You should remember "Hoimy dear," that there are many other "fems" in this wide, wide world.

Your advisor,  
—AUNT MINNIE.  
—A-H-S—

### SUPPOSI'

Supposin' the students of Andover High School should go on strike for hopes of getting an ice box effect in the school.

Supposin' Lloyd Sly should happen to hurt his finger (ask him about it).

Supposin' Lawrence Howland would wear knickers.

Supposin' W. Cook would stop making his Sunday night visits on Greenwood street.

Supposin' we knew who bought all the sundae for D. Boone and V. Smith Monday P. M.

Supposin' Deke Clarke had gotten a "black eye" by saying too much about the strike to E. T.

Supposin' Don Brundage should really go out and sit in the middle of the hall.

Supposin' Dick Appier would stop robbing the cradle.

Supposin' we should sign off for now.

## GUESS WHO ?

This person is rather short and plump, with pretty red hair. She has a very good personality and never pouts or gets angry (that is, for all we know). She has a brother, ask him. She is a Sophomore and fairly good in school. "Charlie" Huffcut might give you a clue for she is always winking at him in the fourth period study. She takes French I, and is always gossiping with Roberta Church in class. You can guess without half trying. Answer will appear in next week's issue.

Answer to last week's—Philip Crandall.

#### —A-H-S—

### THE LAST LAUGH

Susan: "What have you there?"  
Lester R: "Insect Powder."  
Susan: "Heavens; you aren't going to commit suicide?"

"Now look here," said Miss Clifford, "you must not say 'I ain't going.' You must say, 'I am not going.' He is not going. They are not going. We are not going."  
"What, Miss," retorted Howard Post, "ain't nobody going?"

Velm: "Isn't this an ideal spot for a picnic dinner?"  
Jessamine: "It must be, Fifty million insects can't be wrong."

Ethel W: "Dora could have married anybody she pleased."  
Doris H: "Then why is she still single?"  
Ethel: "She never pleased anybody."

Jimmie C: "Was he violent when you told him you wanted to marry his daughter?"  
Fay: "Violent? I should say so. Why he nearly shook my hand off."

"What pupil can tell me what a buttress is?" asked Mrs. Joyce.  
"Oh, I know," said Marjorie N. "It is a nanny goat."

Louise H: "That is a picture of the famous Indian Chief, Black Hawk."  
Jack R: "Hummmmm—He had a son, Tommy, didn't he?"

Prof: (in economic geography class): "Now can anybody tell me where we find mangoes?"  
Billy W: "Yes, sir, wherever we man goes."

John C: "Where were you last night?"  
Don Ly: "Florence and I went couppin'."  
John C: "You had a big time, I suppose?"  
Don: "Fair; Florence did the couppin' and I did the paying."

She was just temperamental, 90 per cent. temper and ten per cent. mental.
