TO BUILD THE TIRE SENSATION of '34!

Beyond Comparison in Quality, Construction, Appearance and Price With Any First Quality Tire Made

HE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress

As millions of people P visited the Firestone Factory at the World's Fair last year, we asked this question-"What do you value most in a tire?" They answered-"Give us Blowout Protection, Non-Skid Safety, and Long Wear at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they

want when they want it. We knew there was only one way to build Quality . and Value into a tire at a moderate price, and that was by volume production, We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to

ThenewFirestoneCentury OR SUPERIOR to any first TIRE ON THE MARKET quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale,

CHECK THESE AMAZING VALUES Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been
