Night Breathing

Teacher: "Every day we breathe oxygen. What do we breathe at night. Willie?"

Willie: "Nitrogen."

It Can't Last

Hot days, cool night, just enough moisture to excite impatience, but some day there will be a change with plenty of rain and a temperature that will chill to the marrow.

This summer is a rough one for your roofing; wood shingles will split and curl, warp away from flashings so that driving storms of rain and snow will find easy access to interiors, producing decay to structure and damage to contents.

We can supply your every need in materials for roof repair—metals in tin or galvanized iron, zinc or copper for patching, flashing or renewing gutters; roofing paint regular mixture or re-inforced with plastic, also cements, solder, lead head or regular plain or coated broad head nails.

In roll roofing we carry a full line of the different plies plain or rock surfaced; all Barber Natural Asphalt saturation which you will find much more durable than when coated with gilsonite or coal tar products.

You will find our prices are the lowest. We buy in car lots at the best cash prices and have a lower delivered cost than many of our competitors. Shop around and you will find that it pays to buy all your roofings at our store.

Cushions

For your Porch Chairs, made of heavy felt and overlaid with a flexible waterproof cover, will not stick to fine or sheer clothing—20c each.

Carborundum Files

Will sharpen quickly all farm, garden and many household tools, giving a keen fast-cutting edge. They save much laborious grinding will last a long time and cost you but 95 cents.

Look Them Over

The house occupied by Richard Harder on Center street has recently been painted one coat with Moore's House Paint, No. 60.

It was last painted with Moore's No. 10 six years ago; this proves that painting with Moore's costs less and gives a better looking, more serviceable job.

Arling's house next door has just been given one coat of Moore's First Coater and one coat of Moore's White. We ask you did you ever see a finer example of Pure White?

Auto Tires

Closing out some slow sellers; if your size is here, you may save over 30 per cent—among them are six-ply 20x4.50 and 19x5.00. Your choice, \$5.00.

For Sale

A Dodge motor car in good operating condition, with low mileage. You can buy this car at a bargain. Inquire at the store.

Flat Irons

The kind your mother used for smoothing the family wash and they did a good job in her practiced hand, it was also about the only tool she had for driving tacks and nails. It takes specialized skill to successfully drive a nail with a flat iron.

From our observation we have formed an opinion that the major portion of homes around Andover are very poorly provided with a decent handy tool for driving nails and tacks and other things.

Every home needs a good house Hammer, one that has not only a good face for driving nails but a good claw for pulling them—most hammers nowadays have a good face, few have good claws. We are offering a good one with both for 60 cents.

Sagging Doors

They ride the floor and always leave a crack; square them up with an adjustable metal brace. These braces are 42 inches long with a turn-buckle in center which allows the exact adjustment. Complete with all attachments—15 cents.

A skeptical gent was Bill Teeter; He wouldn't believe his gas meter So he pulled out a match And gave it a scratch—"Good morning," he said to Saint Peter.
