

IT'S FUN TO TAKE A CHANCE

HUMAN nature being what it is, it's fun to take a chance. For diversion and recreation it is all quite well, but for the more serious business of making life successful it is not good business. The attempt to force achievement through a method of taking unnecessary chance is seldom successful. The law of average usually prevails. . . . This is particularly true in regard to your financial affairs..... To be satisfied with a fair and sound yield on savings or investment is to operate on a sound policy.... Our banking service is complete. . . . We can assist you in many ways. . . . We solicit your patronage. . . . Let us explain our banking service.
