Grass Seed Buyers

Did you read the warning in a recent issue of the Andover News, warning about the poor quality of seed being sold by canvassers and mail concerns?

This year when seeds are so much cheaper, there is no need of taking chances on any these fly-by-night concerns.

The quality of the seed we have ordered is of the best and buying a carload, our price is right.

Come in and talk it over.

Scott Towels

Scott Towels are the best kitchen helper a housewife can ever have. These new paper kitchen towels are real work-savers; hands to dry, greasy pots and pans to wipe; a kitchen table to clean off—use them, and throw them away. There's nothing to wash or rinse afterwards.

Scott Towels are so quick, clean and convenient and are twice as absorbent as ordinary paper towels. They are extra strong too—they really dry. They are inexpensive to use—two big rolls cost but 25 cents—150 towels on each. That is actually only a penny a dozen. Buy a roll of Scott Towels and be convinced that they cut your work in half. Once you use them you will never be without them.

Wasted Heat

How often when sitting in some room in the house you feel a cold draft. Often this is caused by a broken window.

Our stock of glass is complete and it is better to keep in that heat these cold days and save fuel by keeping all the windows filled with whole lights of glass than trying to heat with windows that have broken lights of glass.

Skat

A grit soap that should be always in easy reach—good for removing stains and is very effective for light scouring. Large can 10c.

The Eastern Star will hold a card party at their hall Tuesday night.
